Subject: The brief of Louis and Lucienne Colin

Dear Michael,

I just got back from the Colin's home. These people are 80 years old (Lucienne) and 84 years old (Louis). Their native language is French. They called me yesterday to ask me if I would help them put their brief together. I told them I would get a bi-lingual friend to come with me. Here is their brief. You may call them to verify.

Sincerely,

Bill Moylan

Dear Mr. Thomas,

In answer to the RWQCB's first question, "Must the prosecution's case as presented orally on April 28, 2006, be stricken entirely or to some lesser degree?"

Yes, entirely. Don't even bring it up again. We consider it harassment because the majority of the people in Los Osos rejected the project as it was. We are not against some form of sewer, but not in the middle of town.

In answer to the RWQCB's second question, "if the prosecution is required to present its case again, should it have the opportunity to introduce additional written materials into the record before the Water Board?"

No, enough is enough.

In answer to the RWQCB's third question, "If the prosecution is allowed to supplement the written materials that it has introduced, should designated parties be entitled to submit additional written materials?"

Why not?

In answer to the RWQCB's fourth question, "If the prosecution case is stricken entirely or to some lesser degree, should the Los Osos Community Services District be permitted to start its case over?"

Yes, of course. You have a lack of respect for the defendants.

In answer to the RWQCB's fifth question, "Designated parties with personal issues such as childcare and health, that they would like the Water Board Chairman to consider when setting the order of presentation of the individual Cease and Desist Orders, shuld put such issues in writing for submission by June 23, 2006."

Considering the health of myself and my husband (our ages are 80 and 84), we are under doctor's care and would like to be among the first to be free of harassment. However, our first choice would be for the RWQCB to drop its case against Los Osos entirely.

Sincerely,

Lucienne and Louis Colin
