INITIAL STATEMENT OF WATER DIVERSION AND USE
NOTE: A Statement is not a Water Right

This Statement should be typewritten or legibly written in ink and submitted to the address above.
A separate statement must be filed for each point of diversion.

An (*) indicates a required section. Required sections must be completed for the Statement to be accepted.

***A.** Claimant/Agent Information

Claimant/Owner: EIGHT MILE ROAD NORTH L.P.	Agent: JOHN B. MEEK, JR.
Mailing Address	Mailing Address
1919 GRAND CANAL, STE B-5	1440 ARUNDEL CT
STOCKTON, CA 95207	LODI, CA 95242-4503
Phone No. 209-333-8146	Phone No. 209-333-8146

E-mail Address: jmeek@jmeek.com	E-mail Address: jmeek@jmeek.com

***B.** Water is diverted and used under the claim of: Riparian claim [✓] Pre 1914 claim [✓] Court Decree No _____
Other (explain): _____

***C.** Name of the body of water at the point of diversion
Telephone Cut

Tributary to Bishop Cut

***D.** Point of diversion is located within San Joaquin County on Assessor's Parcel No. 055-310-03
being within the ____ 1/4 of NW 1/4 of Section 35, of Township 3N, Range 5E, MD B&M.

Provide the location of the point of diversion using the California Coordinate System (NAD 1983) or Latitude / Longitude measurements.
Latitude 38d 04' 19.63" N Longitude 121d 23' 55.67" W

Identify the point of diversion and outline the place of use on a United States Geological Survey (USGS) topographic map and submit the map with the Statement.

Name of the diversion works is T P1 Related Water Right(s) _____

E. Do you own the land at the point of diversion? Yes [ ] No [ ] If No, please provide the name and address of the land owner at the point of diversion: _____

***F.** Capacity of diversion works not known (cfs, gpm, or gpd) Capacity of storage tanks or reservoir none (gallons or acre-feet)

Type of diversion facility: Gravity [ ] Creek Pump [✓] Well Pump [ ]

Method of measurement: Weir [ ] Flume [ ] In line flow meter [ ] Electric Meter [ ] Estimate [✓]

NOTE: # Monthly report below is optional until January 1, 2012, at which time the information becomes mandatory.

#Provide the maximum rate of diversion achieved in each month in the table below as measured in: cfs [ ] gpm [ ] or gpd [ ]

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec

Additional copies of this form and water right information can be obtained at www.waterboards.ca.gov/waterrights.

S017760

*G. Provide the quantity of water diverted each month in the table below as measured in: Gallons ☐ Million gallons ☐ Acre-feet ☑
NOTE: Unmeasured, rough estimate - SEE ATTACHED 2009 WATER DIVERSION & USE ESTMATE WORKSHEET

Year	Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec	Total Annual
2009	17.29	37.05	47.43	55.34	43.42	141.03	153.88	68.81	62.87	59.40	37.05	24.70	748.25

H. Annual water use in recent years: Maximum _____ (gallons or acre-feet) Minimum _____ (gallons or acre-feet)

State the year of first use at diversion site or storage facility possibly 1800's

*I. Beneficial water use is for: (example, number of acres and type of crop irrigated, average number of persons served, number of stock watered, etc.) approximately 231.1 acres of dry beans and 6 acres of walnuts

*J. General description and location of the place of use shall be identified using a USGS topographic map, or if assigned, may be provided using the public land description to the nearest 40 acre parcel accompanied by the County Assessor's parcel map.
Located on Bishop Tract in San Joaquin County. SJCo Assessor's Parcel 055-310-03. See the attached parcel map, USGS map with pump location, and field map.

K. Please answer only those questions below that are applicable to your project.

1. Conservation of water
   a. Describe any water conservation efforts you have in place good farming practices and return all unused irrigation, storm, and seepage water to Delta waterway Bishop Cut
2. Water quality and wastewater reclamation
   a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree that unreasonably affects such water for other beneficial uses? YES ☐ NO ☑
3. Conjunctive use of surface water and groundwater
   a. Are you using groundwater in lieu of surface water? YES ☐ NO ☑

I declare under penalty of perjury that the information in this report is true to the best of my knowledge and belief.

*DATE: 6/27/10 at Lodi, California 95242, California

*SIGNATURE: _____

*PRINTED NAME: JOHN B. MEEK, JR
(first name) (middle initial) (last name)

COMPANY NAME: Eight Mile Road North L.P.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed form the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to 1) store water for later use 2) divert water which originates in a different watershed 3) divert water released from storage, or 4) divert return flows from groundwater use.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission in December 1914, new appropriators have been required to obtain a permit or license from the State.

Statements of Water Diversion and Use must be filed by a riparian and/or pre-1914 appropriative water user. The filing of a statement 1) provides a record of water use, 2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and 3) assists the State in determining if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please visit the website http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/, or write to this office.

EIGHT MILE ROAD NORTH L.C.

2009 WATER DIVERSION & USE ESTIMATE WORKSHEET

T P1

Bishop Tract

To arrive at the estimated acre feet per month diverted, select the crop and "Et" value in inches from the attached Table A. The calculation is: Type of crop acres times Et inches for the month of water application times 1.25 to cover contingencies equals total inches divided by 12 inches per ft. equals the acre ft for that crop for the month. Add the amounts of applied water and insert on Line G. Enter "0" for the months of no applied water.

2009 Crops	Jan	Feb	Mar	April	May	June	July	August	September	October	November	December	Totals

Re: Eight Mile Road North L.P. - Initial Statement of Water Diversion and Use

To Whom It May Concern:

Enclosed are the "Initial Statement of Water Diversion and Use" reports for Eight Mile Road North L.P. There are two reports covering the individual diversion points on Bishop Tract. The estimated amount of water used is based on only the crops grown in 2009. Since cropping patterns may change in future years the estimated use is only a snap shot in time.

Please contact me if you have any questions.
