November 14, 2006

Mr. Michael Thomas, Assistant Executive Officer (FAX 805 788-3571)
Central Coast Water Board
895 Aerovista Place, Suite 101
San Luis Obispo CA 93401

RE: Cease and Desist Order No. R3-2006-1008

Mr. Thomas:

The following is submitted to update and supplement our previous responses to the proposed Cease and Desist order.

We request that all of our previous submissions (dated 02-25-06, 03-30-06, 06-21-06, 07-21-06, 08-15-06,) be incorporated, along with this letter, and included as a part of our response as submitted. *(SEE PAGE 3)

We strongly feel that we have "followed the rules" as we understand them. Our property has a functioning septic system that was approved and permitted by the County of San Luis Obispo. Our system was pumped and inspected on November 3, 2006, and found to be in proper working order. Therefore, we are not "dischargers." We are in compliance with current requirements and are not "guilty" as inferred by communications from the RWQCB. We are not criminals!

The apparent expectations of the RWQCB as expressed in the CDOs are not realistic. My wife and I are not the community of Los Osos. We are individuals and alone, cannot build a sewage treatment system no matter how much we would like to see one in place.

As previously stated, we are not opposed to the installation of a sewage treatment system and would commit to a community-wide system within six months after the system is operational and available. It is our understanding that such a formal agreement is being discussed by Community and RWQCB representatives.

Our long term support of installation of a system is reflected by the fact that we pre-paid our property assessment in August of 2001. We hoped that this would facilitate an earlier completion of a system. We do not consider ourselves to be non-cooperative or obstructive.

We are pleased that continuing progress is being made. As a result of legislation, in 2007 the County of SLO will assume a leadership role in development and completion of a community-wide system. We sincerely hope that the RWQCB will assume a supportive role and assist in satisfactory and reasonable resolution of this matter.

Thank you for your time and consideration,

Charles E. Wilkerson Norma K. Wilkerson

*(ADDENDUM)

We further request that submissions by the other CDO recipients, (current and previous), Interested Parties, Los Osos CSD, and formal and informal representatives of CDO recipients and Interested Parties, by reference, be made a part of our response as submitted.
