John Miller, Chairman
S.F. Bay Area Water Board
1515 Clay Street, Suite 1400
Oakland, CA 94610

Dear Mr. Miller,

This is to ask that higher cleanup requirements be set for cities and counties. Those proposed don't go far enough. San Francisco Bay is afloat with trash. Let's not keep taking one step forward and three back when it comes to protecting such a special place.

Please let me know that it's possible to get zero-trash level results.

Sincerely,
Leslie Shutz
