Lori Okun and Philip G. Wyels
Senior Staff Counsel and Chief Counsel
State Water Resources Control Board
Office of Chief Counsel
PO Box 100
Sacramento, CA 95812

Dear Mr. Wyels and Lori Okun:

The swirl of events that has been put into motion by the Los Osos wastewater project has left me in an emotional state of apprehension.

The aborted sewer plan was stopped because of downtown site and the design did not solve all wastewater problems and especially the cost.

The present Board of Directors of our CSD are working hard to stem the tide of bad decisions made by the previous board.

The act of issuing CDO's at random without testing is unfair. There is so much about this action that is unfair; The time line compared to other cities, Latest technology in one city and old, out dated monster technology forced on Los Osos. The whole community is not involved - providing clean water is the responsibility of the whole. The people of Los Osos do want a wastewater system.

Many issues are in motion – Septic System Management Program, Water Management Plan, Wastewater Treatment Facility, Water Service.

I want clean water and a wastewater treatment plant – I want to stay in Los Osos, I'm on a fixed income, am 81 years old, good health and can climb a mountain, just want peace.

I support the CSD 100%.

Thank you for reading my letter.

Most Sincerely

Dorothy J Norwood
