TABLE B: NO DISCHARGE INSPECTION LOG

Inspect All Discharge Locations At Your Site And Verify That No Offsite Discharge Of Stormwater Occurred During The Rain Event				
Date of Rain Event	**Date of Inspection**	**Time of Inspection**	**Inspector Name**	**Inspector Title**

Instructions:

1. **Complete Table B: *No Discharge Inspection Log*:** Fill out this log for the days of the reporting month that it rained during normal business hours but did not result in any offsite discharge of stormwater or surface drainage during normal business hours.

2. **Wet Season Only:** Table B: *No Discharge Inspection Log* only needs to be completed during the **Wet Season from October 1 through May 31** of the reporting year. It does not need to be completed during the Dry Season from June 1 through September 30 of the reporting year.

3. Once a **Wet Condition Observation Report** has been completed for the reporting month, Table B does not need to be completed for the reminder of the month. It is not required that rain events that occur during the month, that do not produce an offsite discharge, be tracked for the reminder of the reporting month once a Wet Condition Observation Report is completed for the month.
