SAN DIEGO REGIONAL WATER QUALITY CONTROL BOARD

INSPECTOR'S LOG

2003 APR -4 P 1:00

Date Dec 17, 2002 S M T W T F S (CIRCLE DAY OF WEEK) Page #

Weather overcast / intermittent showers

Stephens Plumbing / Shoshone - Contractor created a hazard by covering the concrete sidewalk by placing a 4x6" piece of plywood 3" above finish surface. I contacted Ken B and he authorized my removing the hazard. Will meet contractor @ site tomorrow to inspect for acceptance

Home Gardens - Contractor has crews removing mud in street from rain. New under-sidewalk drain connection to "V" ditch will need repair since it was undermined by the rain.

Curtis Development - Scanlan completed installation of sewer from Adams to intersection @ Washington. Will complete tie-in @ intersection after school Christmas vacation has started. Excavated and placed footings for (3) manholes which will be set tomorrow.

Granite - met w/ Dusty @ Lot 49, Mr. Anklee regarding lot drainage. All water had drained / percolated when I arrived at site. Anklee had called Ken B the night before and stated the water was backflowing. It appears the water had backed-up due to high volume from the rain, not backflowed.

Ryland - Spoke to Super, Bob Williams, and gave verbal warning to place additional control measures in place for NPDES compliance. BMP's not in place I
