

Sacramento River Temperature Management Workshop

April 21, 2021

Jessica Law, Executive Director
Jeffrey Weaver, HDR
Chris Hammersmark, CBEC

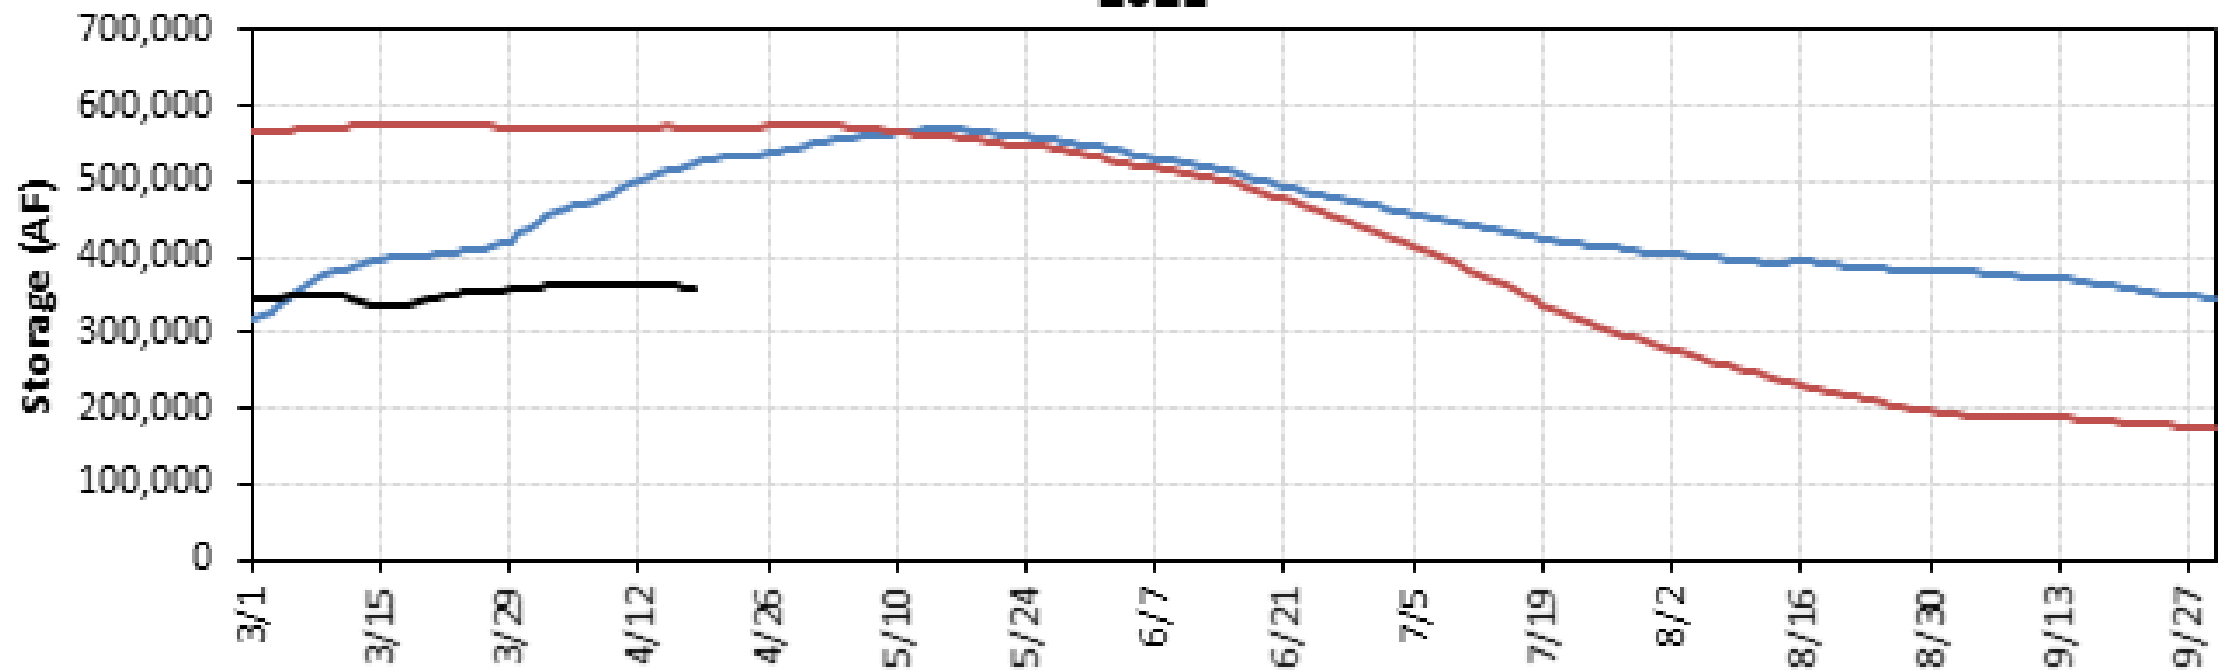

Current Conditions

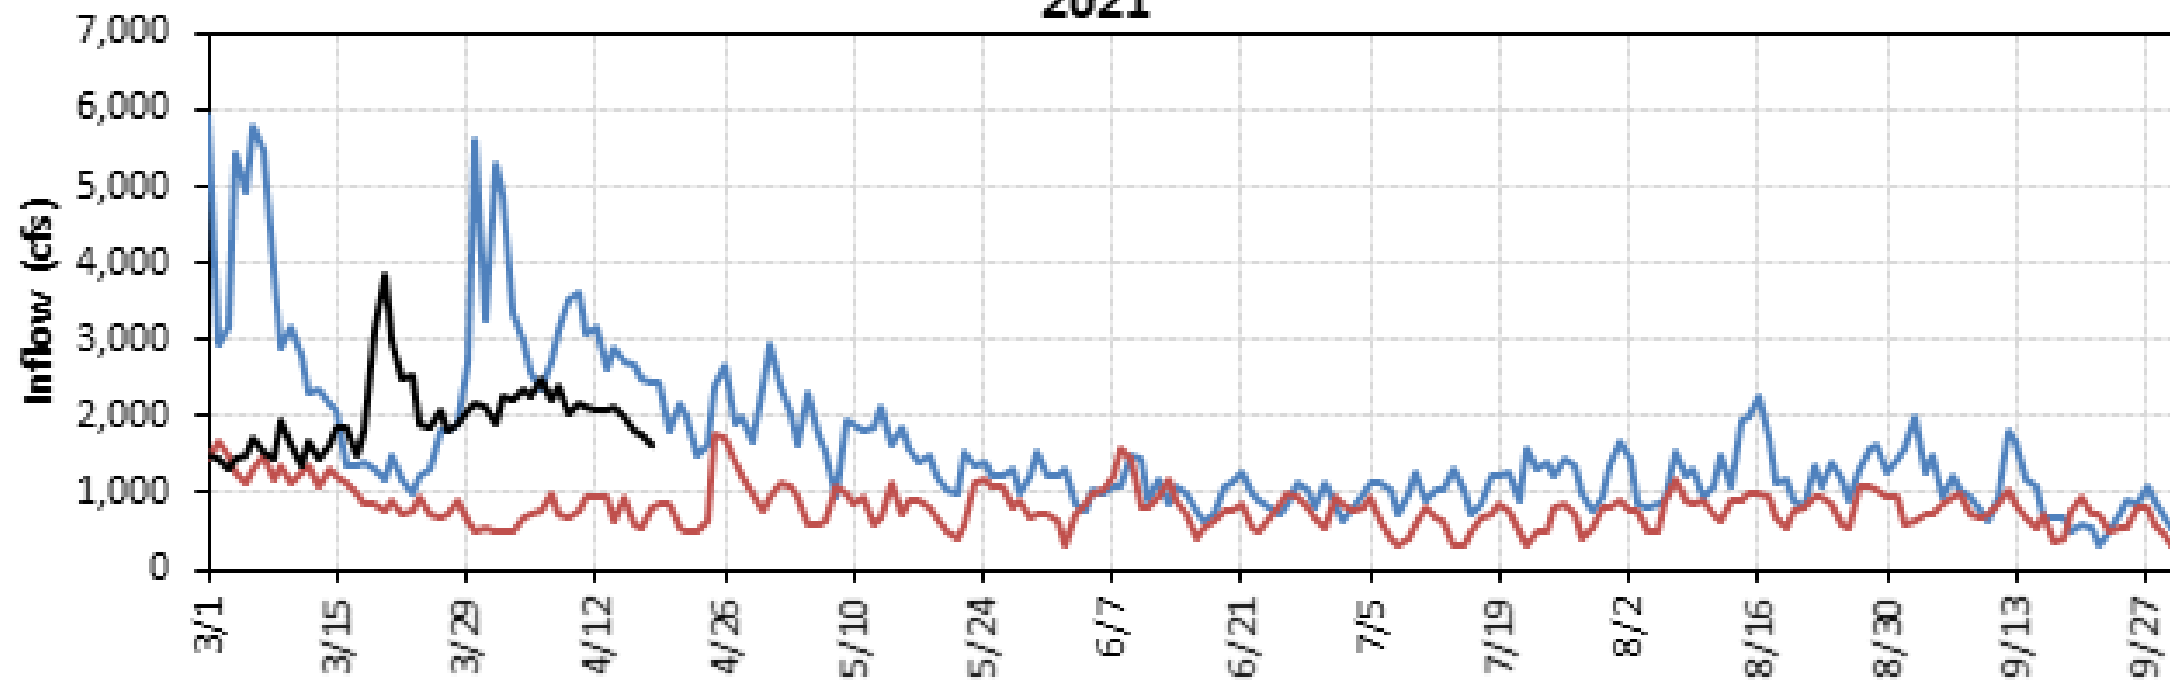

- Folsom storage at historic low levels; lower than 2014-2015 drought
- Releases are well above MRR (Modified FMS)
- Summer water temperatures are projected to be above tolerable range for Steelhead

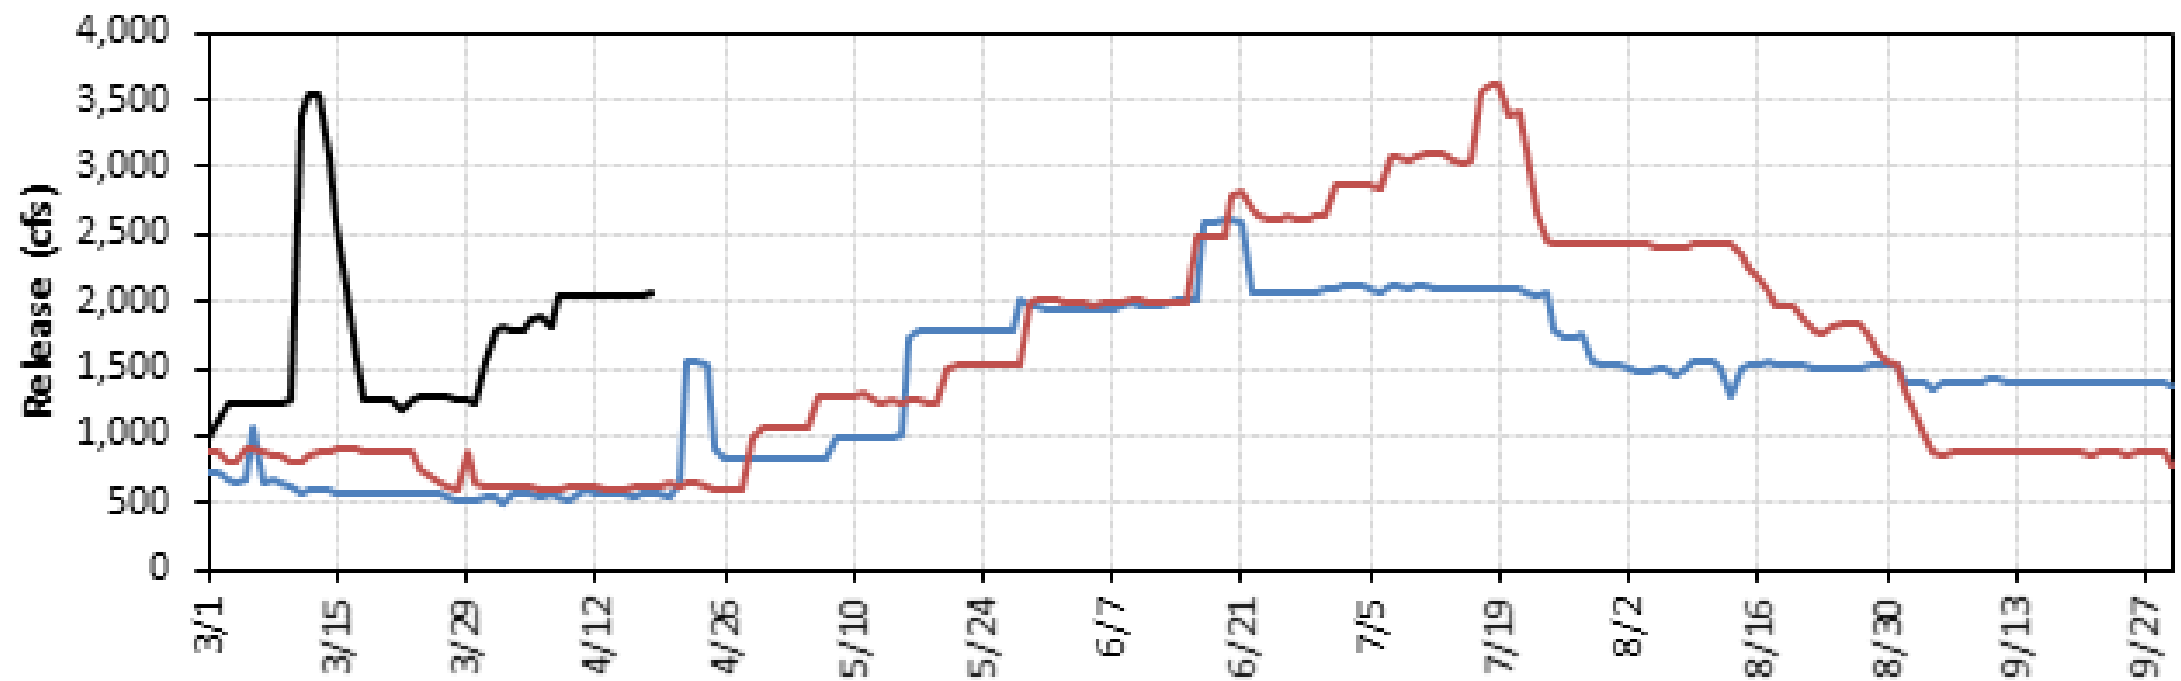

Comparison of Historical Daily Folsom Reservoir Storage for 2014, 2015, and 2021

Comparison of Historical Daily Folsom Reservoir Inflow for 2014, 2015, and 2021

Comparison of Historical Daily Nimbus Dam Releases for 2014, 2015, and 2021

Comparison of Historical Daily Nimbus Dam Release Temperatures for 2014, 2015, and 2021
