

SWAMP Quality Assurance Project Plan (QAPP) Advisor Training

Dates & Locations:

October 28, 2008
UCD Extension, Sutter Square Galleria
2901 K Street; Sacramento, CA

October 30, 2008
UC Riverside Extension
1200 University Avenue; Riverside, CA

Time: 9:00 a.m. – 4:00 p.m.

Course Description: USEPA and the State Water Board require that all monitoring projects have a QA/QC plan. The Surface Water Ambient Monitoring Program (SWAMP) developed a computer based tool that helps users produce Quality Assurance/ Quality Control (QA/QC) documents faster and more accurately for water quality monitoring projects. The tool is called the SWAMP QAPP Advisor.

Topics to be covered include:

- Overview of the new SWAMP Quality Project Plan (QAPP) and QAPP requirements
- Advantage and Limitations of Expert Knowledge Systems & The SWAMP QAPP Advisor
- What is SWAMP QAPP Advisor and how does it work?
- How to Produce QAPP Document Files
- How to Produce Tables Using SWAMP QAPP Advisor
- How to Produce a Master QAPP Document with a Table of Contents
- How to Incorporate Multiple Study Questions in a QAPP
- Examples and Individual Trial Using SWAMP QAPP Advisor

Registration Fees: Paid through the Water Board Training Academy

To Register: All Waterboard staff register on-line at <http://waternet/training>. For all others, go to <http://waterboards.ca.gov/academy>. If you have questions about the registration process, please contact your training liaison.

Questions concerning the class may be addressed to Dawit Tadesse at 916/341-5486 or dtadesse@waterboards.ca.gov.

If you have special accommodation or language needs, please contact Shirley Moreno at (916) 324-7481 or email smoreno@waterboards.ca.gov at least 5 working days prior to the class. TTY/DD/Speech to Speech users may dial 7-1-1 for the California Relay Service.
