

STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 90-21

AUTHORIZING NEGOTIATION AND EXECUTION OF  
AGREEMENTS OR CONTRACTS WITH THE  
UNIVERSITY OF CALIFORNIA, OR PRIVATE PARTIES TO SUPPORT  
THE SAN FRANCISCO BAY-SACRAMENTO/SAN JOAQUIN RIVER  
DELTA ESTUARY PROCEEDINGS

WHEREAS:

1. The State Board is conducting proceedings (Bay-Delta Proceedings) to consider revising water quality objectives and flow regimes contained in the existing Water Quality Control Plan for the Sacramento-San Joaquin Delta and Suisun Marsh (Delta Plan) and in Water Right Decision 1485, both of which were adopted in August 1978.
2. On February 5, 1987, the State Board adopted Resolution No. 87-7, adopting a "Workplan for the Hearing Process on the San Francisco Bay/Sacramento-San Joaquin Delta Estuary" (Bay-Delta Estuary).
3. Because of recommended changes in the Bay-Delta Proceedings, on July 20, 1989, the State Board adopted Resolution No. 89-65 accepting a "Revised Workplan for the Proceedings on the San Francisco Bay/Sacramento-San Joaquin Delta Estuary".
4. The Revised Workplan, which describes the scope, goals, and schedule of the Bay-Delta Proceedings, is aimed at meeting the State Board's goal of completing the Bay-Delta Proceedings in 1993.
5. In the Bay-Delta Proceedings, the State Board will consider requirements including salinity, flow, temperature, and pollutants to protect beneficial uses being made of waters of the Bay/Delta Estuary and the means of implementing such requirements.
6. State Board staff has identified a study necessary for the successful completion of the Bay-Delta Proceedings. Such a study, which is over \$100,000, will investigate the effect of water use upstream of the Bay-Delta Estuary on Bay-Delta flow and salinity.

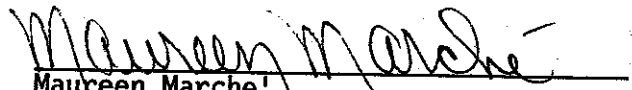

THEREFORE BE IT RESOLVED:

That the State Board authorizes the Executive Director, or his designee, to negotiate and execute contracts and amendments thereto not to exceed the dollar amounts shown below.
