Subject: Clarification of email
Date: Wednesday, June 22, 2016 4:34:24 PM

Hello Peter,

Thank you for the phone call earlier today regarding my email from yesterday. The purpose of that email was two-fold. First, to ensure that folks are aware that my comments to you following the May Board meeting were to clarify/summarize previously submitted public comment and did not constitute “new comment,” other than to respond to outreach by staff in response to the Board’s closing comments.

Secondly, Preservation, Inc is uncertain if the full content of my solicited comments is being considered in this process. Based on the discussion among Board members at the May meeting and the extensive public process around similar content in other regions, we appreciate that the full and technical scope of our comments is reviewed.

Sincerely,

Sarah G. Lopez
