

2011 Basin Plan — Adding 15 Amendments to the 1994 Basin Plan

November 15, 2011

The 2011 edition of the Central Coast Basin Plan includes revised language reflecting all fully approved Basin Plan Amendments adopted since the Plan was last revised in 1994. The Table of Contents and page numbers were revised accordingly. Table 1 lists all of the Amendments incorporated into the 2011 Basin Plan in chronological order.

Basin Plan amendments approved by the Regional Board do not take effect until approved by the State Water Resources Control Board and the California Office of Administrative Law. If an amendment involves adopting or revising a standard which relates to surface waters, it must also be approved by the U.S. Environmental Protection Agency (USEPA) [40 CFR Section 131.21].

The 2011 Basin Plan update did NOT include any other changes, non-substantive or otherwise, beyond incorporating into the text of the Plan those Amendments that had been previously adopted and approved. Since all changes to the Plan included in the update had been previously approved by the Regional Board as Basin plan amendments, no administrative process was required or necessary to accomplish this updated edition.

Questions or comments concerning the 2011 Basin Plan edition can be directed to Steve Saiz at ssaiz@waterboards.ca.gov or (805) 549-3879.
