NOTIFICATION OF TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS ORDER R5-2010-0018-008 (NPDES NO. CAG135001) AND TRANSMITTAL OF INSPECTION REPORT FOR THE WILLOW SPRINGS FACILITY, MT. LASSEN TROUT FARMS INC. AND MARION RUTH JONES FAMILY TRUST, TEHAMA COUNTY

Based on information submitted by you in letters dated 12 July 2011 and 27 February 2012 and an inspection of the Willow Spring Facility conducted by the Central Valley Regional Water Quality Control Board on 14 March 2012, activities requiring the discharge of flow-through aquaculture water to an unnamed tributary of the Coleman Canal ceased prior to the end of July 2011. Therefore, your coverage (Enrollee number R5-2010-0018-008) under the General Order for Waste Discharge Requirements for Cold Water Concentrated Aquatic Animal Production Facility Discharges to Surface Waters (Order R5-2010-0018) is hereby terminated. Should site conditions change such that coverage under the General Waste Discharge Requirements Order is again necessary, you must submit a new Notice of Intent and appropriate fee.

If you have any questions regarding these comments or the enclosed inspection report, please contact Jacqueline Matthews of my staff at (530) 224-3249.
