NOTICE
OF PUBLIC HEARING
TENTATIVE WASTE DISCHARGE REQUIREMENTS
FOR
CALMAT CO., WALTER A. AND ELIZABETH A. BAUN,
AND DARRELL D. AND JANET DELEVAN
SANGER SAND AND GRAVEL PLANT
FRESNO COUNTY

Enclosed are tentative Waste Discharge Requirements (Order) concerning the Sanger Sand and Gravel Plant. The proposed Order is a revision from a previous draft circulated in November 2006. The current tentative Order does not include effluent limitations for aluminum and requires the Discharger to evaluate the source of aluminum in the discharge and determine whether the discharge has a reasonable potential to cause or contribute to an in-stream excursion above the Basin Plan's narrative toxicity objective.

To conserve resources, this letter transmits a paper copy of the proposed Order to the Discharger only. Beginning on 22 March 2007, interested parties may download the proposed Order from the Regional Water Board's Internet website at <http://www.waterboards.ca.gov/centralvalley/tentative/>. Any comments or recommendations concerning the tentative Order must be submitted to this office no later than **noon on 24 April 2007** in order for us to give them full consideration prior to the meeting of the Regional Board.

Also enclosed are four copies of a Notice of Public Hearing (Notice) concerning the proposed Order and a proof of posting form. Regulations require that by **22 March 2007** the Discharger post one (1) copy of the Notice at the nearest city hall or county courthouse, one (1) copy at the post office nearest the site (if allowed), and one (1) copy at the public entrance to the site. By **5 April 2007**, file with this office Proof of Posting, using the enclosed form.

If you have any questions regarding the tentative Order, or if you do not have internet access and wish to request a paper copy, please contact Mr. Dane Mathis at (559) 488-4287.

W. DALE HARVEY
Senior WRC Engineer
RCE No. 55628
