PUBLIC HEARING
concerning

**CONSIDERATION OF ADOPTION OF WASTE DISCHARGE REQUIREMENTS
(NPDES NO. CAXXXXX)**
for
**CALAVERAS COUNTY WATER DISTRICT
FOREST MEADOWS WASTEWATER RECLAMATION FACILITY
CALAVERAS COUNTY**

Calaveras County Water District (Discharger) applied for a National Pollutant Discharge Elimination System (NPDES) permit authorization to discharge tertiary treated reclaimed wastewater from the Forest Meadows Wastewater Reclamation Facility to the Stanislaus River. The proposed NPDES permit allows a seasonal discharge up to 0.84 million gallons per day of tertiary treated effluent into Collierville Tunnel that empties into the Stanislaus River, a water of the United States. The proposed discharge would occur during wet winters from 1 December through 15 April, when wastewater flows exceed the Facility's effluent storage capacity.

Concerning this matter, a public hearing notice was previously issued on 2 November 2007 for the Regional Water Board meeting to be held on 25 January 2008. Due to the Discharger's late modifications to the effluent disposal system, minor changes to the tentative Order were necessary. A subsequent public hearing on this revised project will be held during the Regional Water Board meeting, which is scheduled for:

DATE: 24/25 April 2008
TIME: 8:30 am
PLACE: Central Valley Regional Water Quality Control Board
11020 Sun Center Drive #200
Rancho Cordova, California 95670

Persons wishing to comment on this noticed hearing item shall submit testimony, evidence, if any, and/or comments in writing to the Regional Water Board no later than noon on **5 March 2008**. Written evidence or comments submitted after noon on **5 March 2008** will not be accepted and will not be incorporated into the administrative record if doing so would prejudice any party. Written and oral comments must be limited to the proposed revisions identified in "underline/strike-out" format in the tentative NPDES permit. All designated parties and interested persons may speak at the Regional Water Board meeting, and are expected to orally summarize their written submittals.
