Subject: Bear Valley NPDES Permit

Dear Mr. Marshall:

I am a Bear Valley homeowner and Bear Valley Water District ratepayer. This letter is to express my strong support for the issuance of a NPDES permit requiring secondary treatment.

As you know, Bear Valley has very unique characteristics. Any effluent discharge to surface waters is likely only under extreme conditions (1-in-25 year events, or even less frequently). Our effluent is already substantially tertiary under current conditions. Further, it is the stated policy of our District to discharge only in emergencies, and there has been no discharge in over ten years.

Accordingly, I strongly support secondary treatment as the basis for issuing the current NPDES permit.

Respectfully,

Thomas B. Jacob
