Subject: Bear Valley Water

Dear Mr. Marshall:

We are Bear Valley Homeowners and water district ratepayers. We have had a cabin here for 42 years and obviously love the community.

This letter is to express our strong support for the NPDES permit draft requiring secondary treatment. As you know, Bear Valley has very unique characteristics, with discharge to surface waters being likely only under extreme conditions (1-in-25 year events, or even less frequently). Our effluent is already substantially tertiary under current conditions, it is the stated policy of our District to discharge only in emergencies, and there has been no discharge in over ten years. Accordingly, I strongly support secondary treatment as the basis for issuing the current NPDES permit. Thank you for considering our request.

Cordially,

Mr. & Mrs. Stanley E. Soule Jr.
