(NPDES NO. CA0078174)

FOR

**CALMAT CO., WALTER A. AND ELIZABETH A. BAUN, AND DARRELL B. AND JANET DELEVAN
SANGER SAND AND GRAVEL PLANT
FRESNO COUNTY**

The CalMat Company is the operator of the Sanger Sand and Gravel Plant (Facility), a sand and gravel excavation and processing facility. The CalMat Co. has a long term lease agreement with Walter A. and Elizabeth A. Baun, and Darrell B. and Janet Delevan whom own most of the property at 17041 E Kings Canyon Road, Sanger, CA 93657 on which the Facility is located. CalMat only owns the property that contains the settling pond. Water (a mixture of groundwater and recycled water from the supply pond) is used to wash aggregate excavated from the Facility. No chemicals are added during washing. The process wastewater is discharged to a settling pond and then to a supply pond. The impounded processed water in the supply pond is either recycled for aggregate washing or discharged through a porous cobble/aggregate levee to the Kings River, a water of the United States. Waste Discharge Requirements (WDRs) Order R5-2007-0065 (NPDES No. CA0078174) currently regulates the discharge of treated groundwater from the Facility.

The Central Valley Regional Water Quality Control Board (Central Valley Water Board) will consider adoption of WDRs renewing the NPDES permit.
