

LATE REVISIONS – 4 June 2015

Item 10. Longview Production Company, Surfluh Lease, Raisin City Oil Field, Fresno County – *Consideration of Cleanup and Abatement Order*

Ordered

Page 6, revise Task 1.b under “IT IS HEREBY ORDERED” as follows:

- 1.b Conduct a hydrogeological site characterization to assess the effects of the discharge of oil field wastes on underlying groundwater. The characterization shall be conducted in a manner to utilize acquired information to further assess the impacts of the wastewater discharge on groundwater. If the Discharger demonstrates that the wastes discharged to the ponds cannot affect the quality of underlying groundwater, the Assistant Executive Officer may rescind by signed letter all or part of the requirements to complete the groundwater investigation and groundwater monitoring portions of this Order.
