

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

ORDER R5-2015-XXXX

REVISING ORDER NO. R5-2014-0030
WASTE DISCHARGE REQUIREMENTS GENERAL ORDER
FOR GROWERS WITHIN THE SACRAMENTO RIVER WATERSHED
THAT ARE MEMBERS OF A THIRD-PARTY GROUP

WHEREAS, the California Regional Water Quality Control Board, Central Valley Region (hereafter Central Valley Water Board) finds that:

1. On 12 March 2014, the Central Valley Water Board issued Order No. R5-2014-0030 Waste Discharge Requirements General Order for Growers within the Sacramento River Watershed that are Members of a Third-Party Group (Sacramento River Watershed Order).
2. The Central Valley Water Board's authority to regulate waste discharges that could affect the quality of the waters of the state, which includes both surface water and groundwater, is found in the Porter-Cologne Water Quality Control Act (California Water Code Division 7).
3. This Order revises the Monitoring and Reporting Program to allow the third-party to participate in an Executive Officer approved Regional Monitoring Program (RMP) [such as the Delta RMP]. The changes will allow the third-party to submit a proposal for Executive Officer approval to reduce the surface water monitoring requirements and instead provide funding and/or in-kind support to an approved RMP.
4. This Order revises the Sacramento River Watershed Order to provide the third-party additional time to submit the Comprehensive Groundwater Quality Management Plan (Comprehensive Management Plan), which is to be due 60 days after Executive Officer approval of the Groundwater Assessment Report (GAR), rather than one year after the Notice of Applicability. The Comprehensive Management Plan development is dependent on the vulnerability designations yet to be determined in the GAR. Therefore, the Comprehensive Management Plan due date should follow the GAR approval date, and not be due on the same date as the GAR.
5. The Central Valley Water Board, acting as a lead agency pursuant to CEQA (Pub. Resources Code, § 21000 et seq.), certified a Program Environmental Impact Report (PEIR) for the Irrigated Lands Regulatory Program on 7 April 2011. This Order relies on the environmental impact analysis contained in the PEIR to satisfy the requirements of CEQA. The administrative changes and the timelines modified pursuant to this Order fall within the scope of regulatory activities identified and analyzed in the PEIR. Therefore, the PEIR identified, disclosed, and analyzed all potentially significant environmental impacts of this Order.
6. The Central Valley Water Board has notified interested agencies and persons of its intent to adopt this Order for discharges of waste from irrigated lands within the Sacramento River Watershed, and has provided them with an opportunity for a public hearing and an opportunity to submit comments.
