**MONITORING AND REPORTING PROGRAM PLAN UPDATE CONSOLIDATION –
SAN JOAQUIN COUNTY AND DELTA WATER QUALITY COALITION**

Thank you for submittal of the updated San Joaquin County and Delta Water Quality Coalition (Coalition) Monitoring and Reporting Program Plan (MRPP) and Quality Assurance Project Plan (QAPP) on 20 October 2010. The updated MRPP and QAPP consolidate the approved amendments since the September 2008 MRPP approval. The updates also include corrections to typographical errors and revisions of some laboratory analytical methods, including stricter analytical method detection limits and reporting limits.

The Central Valley Regional Water Quality Control Board (Central Valley Water Board) staff has reviewed the updated MRPP and QAPP and summarized the items submitted for approval in the attached spreadsheet. All of the updates are accepted with the exception of the sediment pyrethroid analytical method revision from method EPA 8270 to GCMS-NCI-SIM. The Central Valley Water Board's Quality Assurance officer is reviewing your submitted validation package. Consequently, staff will prepare a separate letter based on the Quality Assurance officer's pending review.

Should the Coalition wish to revise or update any of its MRPP or QAPP, Executive Officer approval will be required prior to the implementation of any such changes. If you have any questions or comments you may contact Chris Jimmerson at (916) 464-4859, or by email at cjimmerson@waterboards.ca.gov.

Pamela C. Creedon
Executive Officer
