Goal of Meeting: Review first three months of MUN Archetype Monitoring results and identify potential changes to the Monitoring Plan. Continue discussions on the flow charts used to categorize and evaluate the appropriate MUN beneficial use in agricultural dominated water bodies, including discussions on appropriate terminology and definitions.

Action Items of the Meeting:

- *Review monitoring results for the first three months of the MUN archetype monitoring program*
- *Identify potential changes to the MUN Archetype Monitoring Plan and budget, working on straw man proposal*
- *Obtain feedback on straw man flow chart options and use case study examples to identify questions or issues.*
- *Identify MUN project definitions that have participant consensus and those requiring follow-up discussion*
- *Identify future meeting dates and topics. Identify CEQA scoping meeting action items.*
- *Review decisions made and identify action items and next steps*
