Meeting Purpose:

The Central Valley Water Board is developing a mercury control program for the lower American River and Lake Natoma. The purpose of this meeting is to review guiding principles developed for the Delta methylmercury TMDL and discuss their applicability to the American River Project. In addition, staff will present portions of the 3 September straw proposal and solicit stakeholder input and suggestions on these documents.

Please review the meeting materials before the meeting (cover letter, guiding principles, straw proposal), available at:

http://www.waterboards.ca.gov/centralvalley/water_issues/tmdl/central_valley_projects/american_river_hq/index.shtml

Schedule:

- Welcome, Introductions, and Agenda Review
- Guiding Principles
 - Application of the Delta methylmercury TMDL Guiding Principles to the American River Project
- Straw Proposal
 - Staff presentation and stakeholder discussion
- Closing, Next Steps
