Meeting Purpose:

The Central Valley Water Board is developing a mercury control program for the American River Watershed. The purpose of this meeting is to present background information on total maximum daily loads (TMDLs), to provide an overview of the fish, water and sediment data that will be used to develop the TMDL, and to discuss development of fish tissue targets.

Schedule:

- Welcome, Introductions, and Agenda Review
- TMDL Background
 - State and Federal Regulatory Requirements
 - TMDLs & Basin Plan Amendments
- Mercury and methylmercury data
 - Fish tissue
 - Water
 - Sediment
- Mercury and methylmercury source analysis
- Fish tissue targets
- Discussion
- Closing, Next Steps
