

### Regulatory Measure Relationships

Below is the list of regulatory measure relationships. If the screen currently displays “Passive” the choices in the role/relationship drop down menu will be limited to those in the passive column. If the screen displays “Active”, the choices in the role/relationship drop down menu will be limited to those in the active column. To see the other choices, change the voice.

Passive	Active	Definition
Amended By	Amends	The relationship between two regulatory measures that are for the same discharge. Both regulatory measures should be active, though the more recent regulatory measure revises portions of the existing regulatory measure.
Archiving (Passive) (to be Archived By)	Archiving (to be Archives)	Only used for regulatory measures that have been activated and the requirements need to be adjusted.
Enforced By	Enforces	The relationship between two regulatory measures, where the first order is violated and therefore subject to the actions of the second order.
Regulates	Enrolled Under	The relationship made from an enrollee regulatory measure (type) to a general regulatory measure (type).
Implemented By	Implements	The relationship between a base order and a co-permittee regulatory measure.
Notice of Termination (passive) (to be Terminated By)	Notice of Termination (to be Terminates)	For statewide storm water enrollees, the regulatory measure representing the application to end coverage under a statewide storm water general permit.
Replaced By	Replaces	Applicable when a new type of regulatory measure takes the place of an existing regulatory measure (e.g. an NPDES permit is replaced by WDRs or on historic records, an ACL Complaint is replaced by an ACL Order). The regulatory measure that gets replaced should have the status “superseded.”
Rescinding (Passive) (to be Rescinded By)	Rescinding (to be Rescinds)	Used only when the new regulatory measure only rescinds another regulatory measure and does not include additional requirements.
Revised By/Renewed By	Revises/Renews	The relationship between two regulatory measures that are for the same discharge and the existing order is being rescinded with the new order.

Read the statement from left to right, with the record you are on being the right.
