Subject: Comments on Proposed Regulatory Framework.

Hello Ms. Frevert,

CVWD respectfully requests that the commercial agricultural exclusion remain in effect as currently defined. Almost half of Carpinteria Valley Water District's (CVWD) metered sales are to our approximately four hundred agricultural customers. Collecting timely information regarding revenue from these accounts lies outside the role and responsibility of this water district. The CUWCC's staff recommendation appears to be more work than derived benefit.

Kind Regards,

Rhonda Gutierrez
