

The following list represents courses the Department (CDPH) has reviewed and accepted as specialized training courses for our exams. An "X" in the DWT column means the course can be used as a Drinking Water Treatment course. An "X" in the WSP column means the course can be used as a Water Supply Principles course. An "X" in the Supplemental column means the course can be used only as a supplemental specialized training course required for Grade 3-5 exams. Courses that are crossed out are no longer available but are still acceptable for exam qualification.
