Sacramento, CA 95899-7377

Dear Dr. Horton:

The following is the report on the financial audit for the California Department of Public Health's Safe Drinking Water State Revolving Fund for the fiscal year ended June 30, 2010.

Our audit disclosed that the fund's financial statements conform to accounting principles generally accepted in the United States of America, and we found no instances of material noncompliance with applicable laws, regulations, contracts, or grant agreements.

If you have any questions, please call Andrew Finlayson, Chief, State Agency Audits Bureau, at (916) 324-6310.

Sincerely,

*Original signed by*

**INDEPENDENT AUDITOR'S REPORT**

We have audited the accompanying Statement of Net Assets, Statement of Revenue, Expenses, and Changes in Net Assets, and Statement of Cash Flows of the Safe Drinking Water State Revolving Fund (Fund) as of and for the year ended June 30, 2010. These financial statements are the responsibility of the California Department of Public Health's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to provide reasonable assurance as to whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, Definition of Reporting Entity, the financial statements of the Fund are intended to present the financial position, and the changes in financial position and cash flows, where applicable, of only that portion of the financial reporting entity of the department that is attributable to the transactions of the Fund. They do not purport to, and do not present the financial position of the State of California as of June 30, 2010, or the changes in its financial position of its cash flows.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 and 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fund as of June 30, 2010, and the changes in financial position and cash flows thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the department's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the department's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the department's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the department's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of department management, those charged with governance, and state control agencies, and is not intended to be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

STATE OF CALIFORNIA  
CALIFORNIA DEPARTMENT OF PUBLIC HEALTH  
DRINKING WATER PROGRAM  
MANAGEMENT DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2010

The following discussion and analysis of the California Department of Public Health's (CDPH) Drinking Water Program's (Program) financial performance provides an overview of the Program's financial activities for the year ended June 30, 2010. Please read it in conjunction with the financial statements.

Most of the Program's funds are Non-governmental Trust and Agency Funds (Federal) with the three 0629 funds being Service Enterprise Funds. Fund 0625 is the Administration Account, fund 0626 is the Water System Reliability Account, fund 0628 is the Small System Technical Assistance Account, and funds 0629 and 7500 are Safe Drinking Water State Revolving Funds (SDWSRF).

The interest rate CDPH uses is calculated in accordance with California Health and Safety Code Section 116761.65 at 50 percent of the average interest rate, computed by the true interest cost method paid by the State on general obligation bonds issued during the previous calendar year.

CDPH uses the resources of the SDWSRF for low interest loans and, in some cases, principal forgiveness ("grants") to enable water systems to fund necessary infrastructure improvements. CDPH manages the SDWSRF resources to fund projects to ensure that public water systems are able to provide an adequate, reliable supply of safe clean drinking water in conformance with federal and state standards. The SDWSRT project ranking process ensures that program resources and funds are applied to the most significant public health and compliance problems.

USING THIS FINANCIAL REPORT

The CDPH Program financial statements consist of the Statement of Net Assets; the Statement of Revenues, Expenses and Changes in Net Assets; and the Statement of Cash Flows. The Statement of Net Assets and the Statement of Revenues, Expenses, and Changes in Net Assets provide an indication of the CDPH Program's financial health. The Statement of Net Assets includes all CDPH Program's assets and liabilities. The Statement of Revenues, Expenses, and Changes in Net Assets reports off of the revenues and expenses during the time period indicated. The Statement of Cash Flows reports the cash provided and used by operating activities, as well as other cash sources such as bond proceeds, transfers, and grants.

## FINANCIAL HIGHLIGHTS

	<u>Year ended</u> <u>June 30, 2010</u>	<u>Year ended</u> <u>June 30, 2009</u>
<b>Assets</b>		
Current assets	160,835,892	169,762,764
Noncurrent assets	537,967,132	498,429,980
Total assets	698,793,024	668,192,744
<b>Liabilities</b>		
Current liabilities	9,616,776	1,656,388
Noncurrent liabilities	787,726	565,433
Total liabilities	10,404,502	2,221,821
<b>Net assets</b>		
Total net assets	688,388,522	665,970,923
<b>Changes in net assets</b>		
Operating revenues	22,643,339	22,434,406
Operating expenses	29,119,484	12,010,652
Net operating income/loss	(6,476,145)	10,423,754
Nonoperating revenues	28,893,744	47,671,474
Change in net assets	22,417,599	58,095,228

## FINANCIAL ANALYSIS

CDPH Program's net assets were increased by approximately \$58.1 million in 2009 and increased by \$22.4 million in 2010 as more the EPA grant was smaller in 2010. The increase in total assets in 2009 is primarily due to a large number of loans to other governments, a large cash deposit in the State of California's Surplus Money Investment Fund (SMIF), and a large EPA grant. The increase in total liabilities in 2010 is primarily due to the approximate \$17.6 million in grant awards for the year.

The largest component of the CDPH Program's total assets is loans receivable from other governments. These receivables represent approximately 80% of the total assets as of June 30, 2010. The largest component of the CDPH Program's total liabilities is deferred revenue. Deferred revenue constitutes approximately 73% of the Program's total liabilities as of June 30, 2010.

The Program's operating revenues consist primarily of investment earnings (SMIF interest) and interest on the loans to the water entities plus transfers in from EPA Administrative money. The transfers in from EPA Administrative money represent 51% of 2010 total revenues. The Program's operating expenses are primarily comprised of principal debt forgiveness. Principal debt forgiveness represents 55% of the 2010 operating expenses.

## Notes to the Financial Statements Year Ended June 30, 2010

---

### NOTE 1— SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### a. General Information

Effective July 1, 2007, the California Department of Health Services was divided into two separate departments: the California Department of Health Care Services and the California Department of Public Health. Pursuant to Chapter 241, Statutes of 2006 (SB 162), specific programs and public health responsibilities were transferred from the former California Department of Health Services to the newly established California Department of Public Health. The Safe Drinking Water State Revolving Fund (Fund) is now administered by the California Department of Public Health.

The Fund was created pursuant to Health and Safety Code (HSC) section 116760.30, and is continuously appropriated without regard to fiscal year. The Fund is capitalized by the U.S. Environmental Protection Agency (EPA) by a series of federal grants. As a condition for receiving the federal grant, the department is required to provide an additional 20% of matching funds. The department uses the Fund primarily to make loans to public water systems for financing the cost of infrastructure needed to achieve or to maintain compliance with the Safe Drinking Water Act requirements and to protect public health.

The activities of the Fund are included in the State of California's *Comprehensive Annual Financial Report*. The Fund includes the federal loan fund, two state match loan funds, and five set-aside funds. The set-aside funds are the: (1) Administration Account, (2) Water System Reliability Account, (3) Source Protection Account, (4) Small System Technical Assistance Account, and (5) Public Water System, Safe Drinking Water Revolving Fund.

The Public Water System, Safe Drinking Water State Revolving Fund is a set-aside fund that was created during fiscal year (FY) 2006-07 to pay for expenses to provide public water system oversight activities to support the Fund's loan and grant program. The establishment of the separate set-aside funds to account for the costs related to the administration of the Fund is consistent with federal guidelines. The loan and set-aside funds are combined to form the Fund's financial statements.

#### b. Basis of Presentation

The Fund is classified as an enterprise fund. The Fund is accounted for on the flow of economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time the liabilities are incurred. Enterprise funds account for goods or services provided to the general public on a continuing basis when: (1) the department intends that all or most of the cost involved is to be financed by user charges, or (2) periodic measurement of the results of operations is appropriate for management control, accountability, capital maintenance, public policy, or other purposes. The Fund applies all applicable Governmental Accounting Standards Board (GASB) pronouncements, pursuant to GASB Statement No. 20, as well as all applicable Financial Accounting Standards Board (FASB) Statements and

Interpretations issued on or before November 30, 1989, unless the pronouncements conflict with or contradict GASB pronouncements. For purposes of the Statement of Cash Flows, all cash and pooled investments, as discussed in Note 4, are considered to be cash equivalents.

c. Revenue Recognition

The operating revenues and expenses are generated through the issuance of loans and the operation of the Fund's set-aside activities. All other revenues and expenses are reported as non-operating revenues and expenses.

Funding from federal capitalization grants and state matching grants for reimbursement of the Fund's set-aside activities is recognized as operating revenue as set-aside activity expenditures are incurred. Funding from federal capitalization grants and state matching grants for loan activities is recognized as a non-operating revenue when loans are disbursed. Amounts received from the federal capitalization grants and state matching grants for the purpose of making loans before the loans are disbursed are recorded as deferred revenues.

d. Cash Flow Presentation

The statement of cash flows is provided in accordance with the provisions of GASB 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*; and GASB 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*. In accordance with GASB 9 and GASB 34, the direct method was used to report net cash flows from operating activities by adjusting operating income to reconcile it to net cash from operating activities.

e. Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the reporting date and revenues and expenses during the reporting period. Actual results could differ from those estimates.

f. Compensated Absences

State employees are eligible to accrue annual leave, vacation, and sick leave. Annual leave accrues at a rate of 11 to 20 hours per month. Vacation accrues at a rate of 7 to 16 hours per month. Accrued annual leave and vacation are paid out upon termination while sick leave is not. As of June 30, 2009, the Fund's compensated absences totaled \$787,726.

g. Restricted Net Assets

Net assets are restricted due to specific provisions of the Federal Safe Drinking Water Revolving Fund Program.

h. Reclassifications

Certain reclassifications have been made to fiscal year 2008-09 balances to conform to the presentation used in fiscal year 2009-10.

i. Restatement of Beginning Net Assets

Beginning fund balance decreased by \$38,264,982 to correct capitalization grant revenue that was over recognized in the prior year.

**NOTE 2— CAPITALIZATION GRANTS**

The Fund is financed by annual grants from the U.S. Environmental Protection Agency (EPA) and a state match equal to 20% of the federal award. In June 2009, the Fund was awarded an additional federal capitalization grant under the American Recovery and Reinvestment Act of 2009 (ARRA). The ARRA grant required that no less than 50% of the funds be provided as additional subsidization in the form of principal forgiveness, grants, or negative interest loans. The Fund is providing the additional subsidization in the form of principal forgiveness and negative interest loans which have been recorded as principal forgiveness expense.

Of the amount awarded by EPA, the department has designated \$111.4 million for administrative expenses, program management, small system technical assistance, loan assistance, and other state program expenses (collectively known as set-asides), and \$891.8 million for loans. Set-asides are accounted for in other funds. There is an additional ARRA grant received this year of which \$9.1 million are designated for set-asides and \$149.8 million for loans.

The grants awarded, amounts drawn on each grant, and the loan balances available for active grants, as of June 30, 2010, are presented below:

Grant Year	Capitalization Grant Amount	Award Available for Set-Aside	Award Available for Loans	Award Drawn for Loans	Available for Loans as of June 30, 2009
1998	\$ 75,682,600	\$ 10,048,176	\$ 65,634,424	\$ 65,634,424	\$ —
1999	77,108,200	4,934,925	72,173,275	72,173,275	—
2000	80,816,700	5,172,269	75,644,431	75,644,431	—

2003	82,392,347	6,879,101	75,513,246	75,513,246	—
2004	81,966,200	11,016,282	70,949,917	70,949,917	—
2005	84,957,600	16,601,008	68,356,592	34,470,672	33,885,920
2006	84,847,500	12,248,614	72,598,886	—	72,598,886
2007	67,123,678	8,700,249	58,423,429	—	58,423,429
2008	67,105,000	8,960,700	58,144,300	—	58,144,300
2009	66,424,000	8,867,604	57,556,396	—	57,556,396
2010	66,424,000	8,867,604	57,556,396	—	57,556,396
ARRA 2009	159,008,000	9,197,000	149,811,000	—	48,351,411

**NOTE 3— CASH AND POOLED INVESTMENTS**

Cash and pooled investments comprise of the following items:

	<u>June 30, 2010</u>	<u>June 30, 2009</u>
General cash	\$ 3,430,219	\$ 4,941,581
Cash in State Treasury	16,626,691	17,582,536
Deposits on hand	7,444	334,062
Deposits in Surplus Money Investment Fund	<u>113,167,000</u>	<u>123,925,000</u>
Total	<u>\$ 133,231,354</u>	<u>\$ 146,783,179</u>

Cash in State Treasury is cash deposits managed by the Centralized Treasury System. Excess cash is invested in the Surplus Money Investment Fund (SMIF). All of the resources of the SMIF are invested through the Pooled Money Investment Account (PMIA). The PMIA investment program is designated by the Pooled Money Investment Boars and is administered by the Office of the State Treasurer. Investments in the SMIF are stated at fair value. As of June 30, 2010, the Fund has invested funds in SMIF in the amount of \$113,167,000.

All cash and investments in SMIF are highly liquid and considered cash equivalents. Cash equivalents are readily convertible to known amounts of cash and are so near their maturity they present insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less meet this definition.

Additional disclosure details required by GASB 3, GASB Technical Bulletin 94-1, and GASB 40 regarding cash deposits, investments, and derivatives, can be found in the June 30, 2010 Comprehensive Annual Financial Report of the State of California.

**NOTE 4— SMIF INTEREST RECEIVABLE**

Investment Interest Receivable represents the amount of interest earned but not yet deposited in the Surplus Money Investment Fund. The amount of SMIF interest receivable as of June 30, 2010, and June 30, 2009, is \$154,027 and \$348,002, respectively.

**NOTE 5— DUE FROM EPA**

For the Fund's set-aside and loan administration activities, amounts due from the Environmental Protection Agency are recognized when expenditures are incurred. The amount Due from EPA is the amount by which expenditures exceed EPA grant reimbursements. The amount Due from EPA as of June 30, 2010, and June 30, 2009, is \$2,832,213 and \$1,692,569, respectively.

**NOTE 6— LOAN PRINCIPAL AND INTEREST RECEIVABLE**

The department disburses the loan proceeds on a cost reimbursement basis. As entities spend money on projects financed by the Fund and request reimbursement, the department releases the loan proceeds. Interest accrues on all loan disbursements as of the date each disbursement is made.

There is no allowance for uncollectible accounts, as all repayments are current, and management believes all loans will be repaid according to the loan terms. There have been no loan defaults in the program since its inception.

The Fund makes loans to qualified local and private entities at interest rates ranging between 0% and 50% of the average rate paid by the State on general obligation bonds. Loans must be repaid within 20 years after completion of the project (30 years for financially disadvantaged communities). Recipients make semiannual or, in some cases, annual payments, generally starting 12 months after project completion. Loan interest revenue and its related receivable is recorded as it accrues. The Fund has loan interest receivable as of June 30, 2010, and June 30, 2009, in the amount of \$2,795,051 and \$1,991,612, respectively.

The following schedule of loans receivable activity for the year ended June 30, 2010, lists each water system's outstanding loan balance. Included in the "Active Loans" category are water systems that have both fully disbursed and active loans outstanding.

Water Entity	Authorized Loan Amounts	Total Loan Amounts Disbursed as of June 30, 2010	Total Principal Payments as of June 30, 2010	Outstanding Loan Balance as of June 30, 2010

				\$ 559,780,379

Loans mature at various intervals through July 1, 2039. The scheduled principal and interest payments on loans for fully disbursed projects maturing in the next four years and every five years thereafter are as follows:

Year Ending June 30	Principal	Interest	Total Receivable
2011	\$ 24,918,862	\$ 7,859,108	\$ 32,777,970
2012	22,211,834	7,457,307	29,669,141

2016-2020	123,145,030	23,986,119	147,131,149
2021-2025	118,520,679	11,824,094	130,344,773
2026-2030	56,649,921	2,283,173	58,933,095
2031-2035	2,141,912	141	2,142,053
2036-2040	619,863	—	619,863
Total	<u>\$ 417,365,832</u>	<u>\$ 73,242,284</u>	<u>\$ 490,608,116</u>

The amortization schedules for the active projects may change upon completion of the project when the final loan balance will be determined.

**NOTE 7— PRINCIPAL DEBT FORGIVENESS EXPENSE**

The Fund has loan agreements with disadvantaged communities for which the Fund intends to forgive loan principal under the Fund's disadvantaged community assistance program. Principal forgiveness expense is recognized when the Fund makes payment to the disadvantaged community. As of June 30, 2010, the Fund has not incurred principal forgiveness expense as a result of a loan recipient's inability to repay a loan. During the year ended June 30, 2010, the Fund recognized Principal Debt Forgiveness Expenses of \$17,650,786.

**NOTE 8— DEFERRED REVENUES**

The Fund draws from the federal capitalization grant for the purpose of making loan disbursements before the loans are actually disbursed to loan recipients. Deferred revenue is the amount drawn prior to year end for which loan disbursements are expected to be made in the subsequent year.

Deferred revenue is the amount drawn from the federal capitalization grants for which no loan has yet been disbursed.

**NOTE 9— DUE TO CALIFORNIA DEPARTMENT OF PUBLIC HEALTH (CDPH)**

CDPH incurs various expenditures related to the Fund's set-aside and loan administration activities including payroll, indirect costs, and other related expenditures. As of June 30, 2010, the Fund owes CDPH \$2,181,147 for reimbursement of these expenditures.

**NOTE 10— PENALTIES AND FEES**

The Fund assesses a penalty of one-tenth of 1% per day from the repayment due date on the amount due on loan repayments past due. However, for the fiscal year ended June 30, 2010, the department elected not to impose late payment penalties. Changes to workload priorities associated with the department's reorganization delayed the preparation of loan recipient invoices, and late payment penalties were waived as a result. In prior years, late payment penalties were insignificant.

**NOTE 11— RETIREMENT PLAN**Plan Description

The State is a member of the California Public Employees' Retirement System (CalPERS), which provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

CalPERS is a defined benefit contributory retirement plan. Retirement contributions by employees are set by statute as a percentage of payroll (Tier I employees), or are zero (Tier II employees). Retirement contributions are actuarially determined under a program where total contributions plus CalPERS' investment earnings will provide the necessary funds to pay retirement benefits when incurred. The employer contributions are included in the cost of personal services.

The Fund is included in the State Miscellaneous Category within CalPERS. CalPERS functions as an investment and administrative agent for participating public agencies with the State of California, including the Fund. All risks and costs are shared proportionately by participating state agencies. For further information, refer to the *State of California Comprehensive Annual Financial Report*, and to the *CalPERS Comprehensive Annual Financial Report*.
