GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to 1) store water for later use 2) divert water which originates in a different watershed 3) divert water released from storage, or 4) divert return flows from groundwater use.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. After the formation of the California Water Commission in December 1914, new appropriators have been required to obtain a permit or license from the State.

Statements of Water Diversion and Use must be filed by a riparian and/or pre-1914 appropriative water user. The filing of a statement 1) provides a record of water use, 2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and 3) assists the State in determining if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please visit the website http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/, or write to this office.

STATE WATER RESOURCES CONTROL BOARD

DEFICIENCY IN STATEMENT OF WATER DIVERSION AND USE
DIVERSION FROM *Georgiana Slough*
DIVERSION WORKS NAME *Unknown*

The State Water Resources Control Board (State Water Board), Division of Water Rights (Division), received your Statement of Water Diversion and Use (Statement) on 07/06/2010 . Your Statement has not been assigned an identification number because of incomplete information.

Division staff reviewed the content of your Statement and found the following item(s) inadequate to address statutory requirements. Please complete the missing information on the enclosed returned Statement form. Resubmit the original Statement form to the Division and retain a copy for your records.

<input type="checkbox"/>	The proper form was not used. Please complete and submit the enclosed Statement form.
<input type="checkbox"/>	NAME AND ADDRESS: Provide the name, mailing address, and telephone number of the diverter and of the person filing the Statement if different than the diverter.
<input type="checkbox"/>	WATER USE CLAIM TYPE: Identify the type of water use using the following categories: <u>Riparian claim.</u> The riparian claim exists by reason of ownership of land abutting a stream or body of water and affords no basis to use water upon non-riparian land. <u>Pre-1914 Appropriative Right.</u> Once acquired, an appropriative right can be maintained only by continuous use. The rate of diversion, diversion season and storage quantity cannot be increased over that established prior to the formation of the California Water Commission (December 1914). <u>Other.</u> Describe in space provided on Statement form.
<input type="checkbox"/>	SOURCE: Identify the name of the stream or other source from which water is diverted, and the name of the next major stream or other body of water to which the source is tributary.
<input type="checkbox"/>	POINT OF DIVERSION (POD): Identify the quarter-quarter section, Section, Township, and Range of your POD. Provide the Assessor's Parcel Number if known. <input type="checkbox"/> Latitude / Longitude measurements were inaccurately reported. Please review and correct the location of the POD. <input type="checkbox"/> Only one POD is allowed per Statement; the Statement submitted contains multiple PODs. Please submit a separate Statement of Diversion and Use for each POD.
<input type="checkbox"/>	OWNERSHIP OF LAND AT THE POINT OF DIVERSION: If you do not own the land at the POD, list the name and mailing address of the landowner.

California Environmental Protection Agency

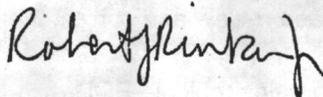

<input type="checkbox"/>	CAPACITY OF DIVERSION: List the rate of diversion in cubic feet per second, gallons per minute, or gallons per day. Describe your diversion and identify whether water is pumped or flows by gravity. If you have a pre-1914 claim and have a storage reservoir, specify the capacity.
<input type="checkbox"/>	ANNUAL USE OF WATER: Provide the maximum and minimum amount of water used annually in gallons or acre-feet. Identify the first year of diversion and use.
<input type="checkbox"/>	PURPOSE OF USE: Identify the type of water use whether for domestic, irrigation, stockwatering or other purposes. If water is used for domestic or municipal purposes, identify the population served. If water is used for irrigation, provide the acreage. If water is used for stockwatering, identify the type and number of stock.
<input checked="" type="checkbox"/>	PLACE OF USE (POU): Describe the location of the place of water use.
<input checked="" type="checkbox"/>	MAP: The location of your POD must be pinpointed using the California Coordinate System (NAD 1983) or latitude/longitude measurements and the POU must be outlined on a USGS map ¹ as described in the Water Code section 5103 (c). Attach the map to the Statement and return. <input checked="" type="checkbox"/> The map submitted is inadequate for the purposes of identifying the POU. Highlight the POU on a USGS topographic map or a public land description parcel map.
<input type="checkbox"/>	SIGNATURE AND DATE: The form was not signed and/or dated. Complete and return the enclosed form with a signature and/or date. <input type="checkbox"/> Submitted forms must contain original signatures. Fax or electronic copies will not be accepted. Please sign and return the enclosed form with a signature and date.
	OTHER:

The items on your Statement, as identified above, must be clarified and/or amended and submitted to the Division for proper processing of your Statement. If the Division does not receive the requested information within 60 days from the date of this letter, your Statement will be considered incomplete.

A Supplemental Statement of Water Diversion and Use (Supplemental Statement) will be mailed to you every three years, and must be filed with the Division prior to July 1 of that year. There is no fee for filing a Supplemental Statement. The submittal of a Supplemental Statement is a record of your water use. It is used by the Division to verify existing data and to notify you of water right matters related to your claim.

If you have questions, please contact the Division at (916) 341-5431, or at Rrinker@waterboards.ca.gov.

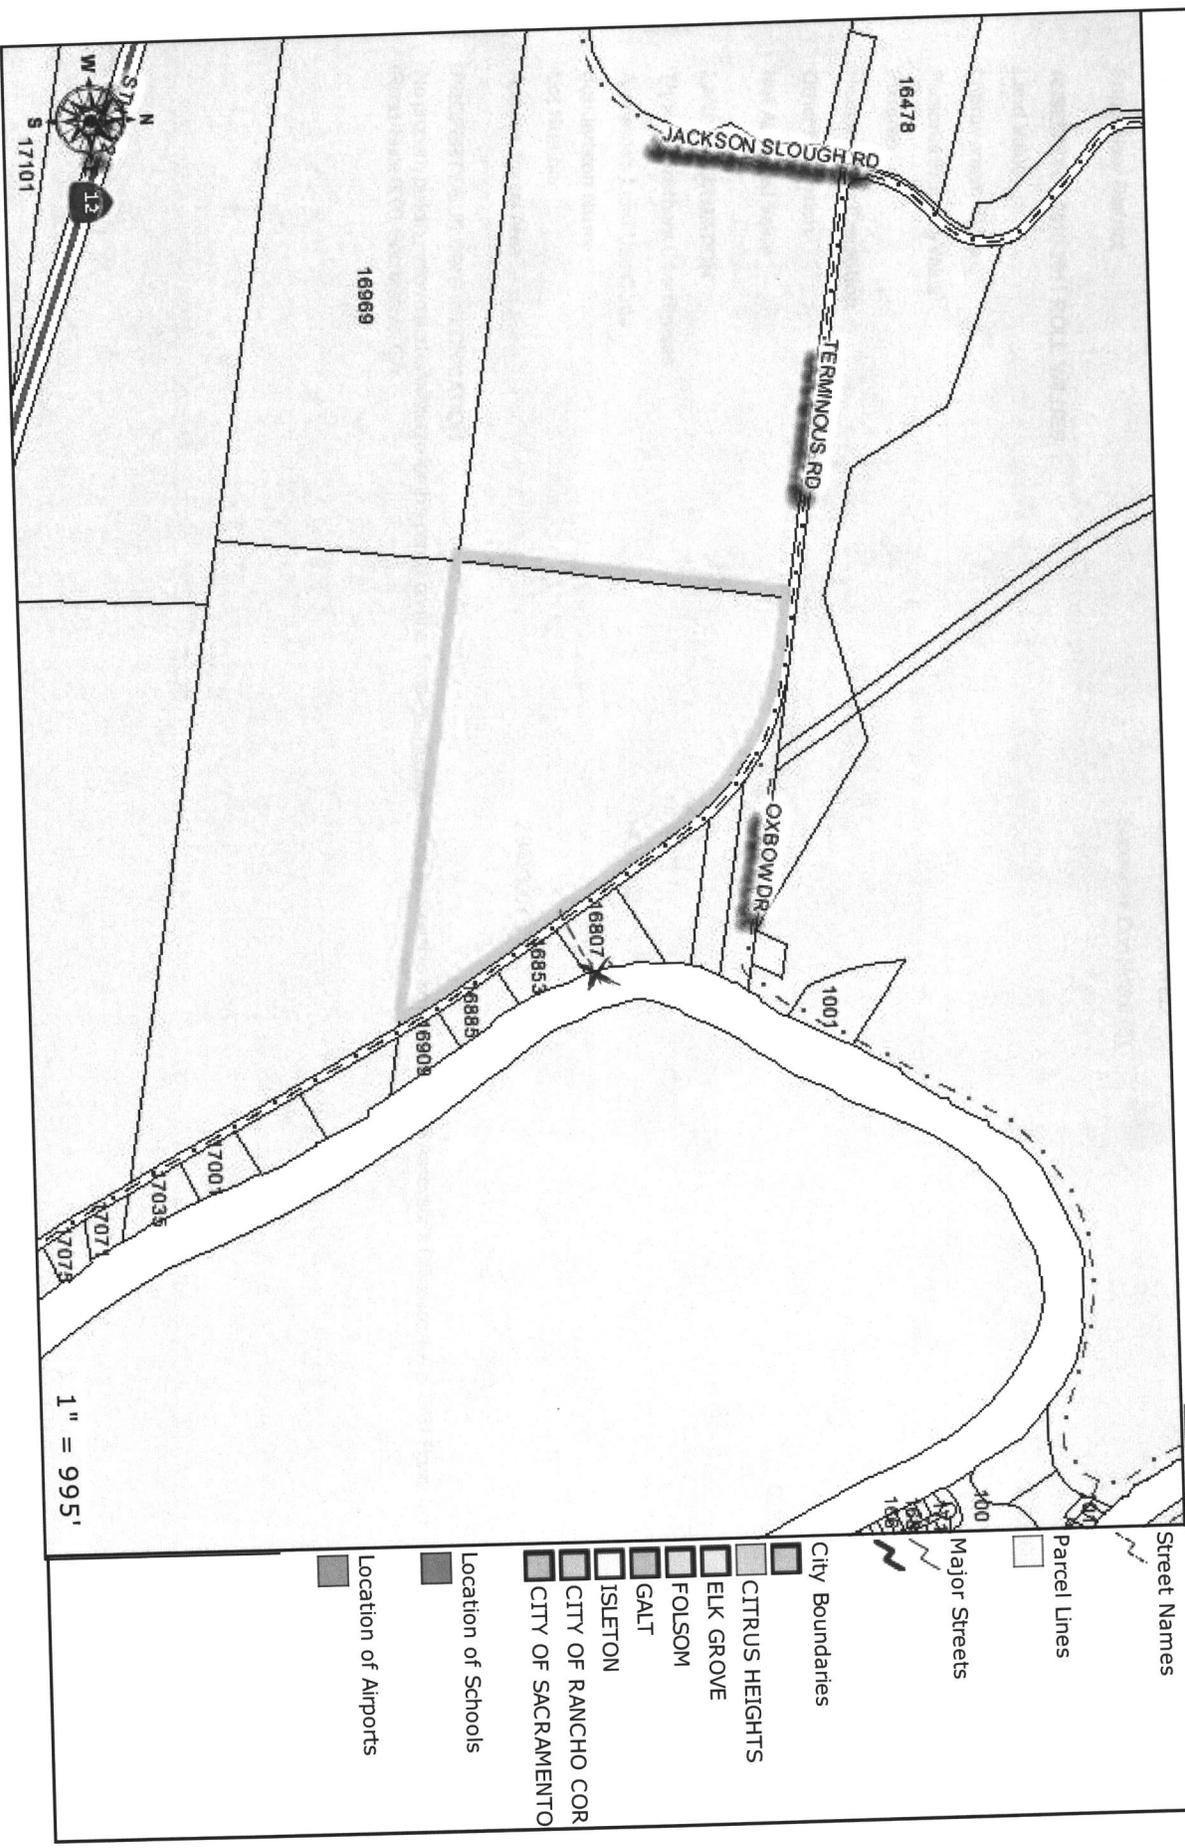

Sincerely,

Robert Rinker, Manager
Fee and Data Management Unit
