NURSERY PRODUCTS – DESIGN PLAN LETTER DATED MARCH 29, 2012

California Regional Water Quality Control Board, Lahontan Region (Water Board) staff reviewed the Design Plan submitted electronically on March 29, 2012. The Design Plan is a revision of a previous submittal and includes the emplacement of a sealant between the concrete apron and the metal plate at the junction of a spillway and the surface impoundment. Water Board staff accepts the revised Design Plan.

We look forward to working with you in a manner that protects water quality. If you have any questions about this matter, please contact Brianna Bergen at (760) 241-7305 or Patrice Copeland, Senior Engineering Geologist at (760) 241-7404.

Sincerely,

Mike Plaziak, P.G.
Supervising Engineering Geologist
