Dear Jeanine Townsend, State Water Board

Re: "Comment Letter - Pesticide Prohibition Basin Plan Amendment"

I am a long time property owner and resident of the Tahoe Keys residential development of South Lake Tahoe (37 years). During these years I have witnessed the ever growing problem of proliferating non native aquatic vegetation in Tahoe Keys, particularly the "Eurasian Mill Foil, which grows up to six inches daily during the warmer summer months. I therefore, strongly support the proposed amendment to the Tahoe Basin Plan that would allow limited use of aquatic herbicides in Tahoe Keys. This long debated action is urgently needed to control these invasive species.

I thank you in advance and urge the passage of this amendment.

Sincerely,
