SUBJECT: Notice of Public Hearing and Opportunity to Comment for proposed revisions to the Clean Water Act Section 303(d) List of Impaired Waterbodies in the Los Angeles Region for Indicator Bacteria in Ventura County Beaches

The California Regional Water Quality Control Board, Los Angeles Region (Los Angeles Water Board) will hold a public hearing to consider proposed revisions to the Clean Water Act Section 303(d) list of impaired waterbodies in the Los Angeles Region (303(d) list) on March 14, 2019.

The Los Angeles Water Board is expected to take formal action on proposed revisions to the 303(d) list. Proposed revisions to the 303(d) list, supporting documentation, and a tentative Board Resolution, are available on the Los Angeles Water Board's website at:
https://www.waterboards.ca.gov/losangeles/water_issues/programs/tmdl/

The federal Clean Water Act (CWA) gives states the primary responsibility for protecting and restoring water quality. Under CWA Section 303 (d), states are required to review, make changes as necessary, and submit to the USEPA a list identifying water bodies not meeting water quality standards and identifying the water quality parameter (i.e., pollutant) not being met (303(d) list). Placement on this list generally triggers development of a pollution control plan called a total maximum daily load (TMDL) for each water body/pollutant pair on the list.

Pursuant to section 6.2 of the "Water Quality Control Policy for Developing California's Clean Water Act Section 303(d) List," waterbodies which make up the 303(d) list are subject to public review and approval by the Los Angeles Water Board. Following adoption of the proposed revisions to the 303(d) list by the Los Angeles Water Board, the adopted revisions will be transmitted to the State Water Resources Control Board (State Water Board), where they will be considered by the State Water Board.

The revisions to the California 303(d) list will require final approval by U.S. EPA. If U.S. EPA determines that changes are needed to the submitted report they will initiate further public review before finalizing and publishing the report.
