**SUBMITTAL OF 2016 SEMI-ANNUAL J-7 DATA REPORT FOR THE PALOS VERDES PENINSULA WATERSHED MANAGEMENT GROUP**

Dear Mr. Unger,

In accordance with §XIV.L of Attachment E of Order No. R4-2012-0175, the Palos Verdes Peninsula Watershed Management Group (Cities of Palos Verdes Estates, Rancho Palos Verdes, Rolling Hills, and Rolling Hills Estates, the County of Los Angeles, and Los Angeles County Flood Control District) respectfully submits Jurisdiction 7 (J-7) Santa Monica Bay Beaches Bacterial TMDL monitoring data collected during the period of July to December 2015. The data is submitted electronically in California Environmental Monitoring Exchange Network (CEDEN) format.

Los Angeles County Sanitation District (LACSD) leads the J-7 monitoring efforts on behalf of the Group. LACSD is currently required to report the data on a monthly basis through the California Integrated Water Quality System (CIWQS), which is understood to be integrated with CEDEN in the near future.

Of the monitoring data submitted herein, one geometric mean exceedance at sampling site SM (i.e. TMDL Site SMB 7-1) occurred on November 9, 2015. However, the final compliance deadline for geometric means is not until 2021. Otherwise, no exceedances of applicable water quality objectives occurred during this period of monitoring.

If you have questions, please contact John L. Hunter by phone at (562) 802-7880 x225 or by email at [jlhunter@jlha.net](mailto:jlhunter@jlha.net).

Sincerely,

A handwritten signature in blue ink that reads "John L. Hunter". The signature is fluid and cursive, with a long horizontal stroke at the end.

John L. Hunter

On behalf of the Palos Verdes Peninsula Watershed Management Group
