

Oxnard

Waterbody: El Rio Drain (tributary to Santa Clara River)

Location: Manhole near pedestrian walkway along Ventura Rd., 185 yards southwest of railroad tracks (34°14'17.38"N, 119°11'23.08"W)

Pros: Likely well-defined rating table, fairly secure inside manhole

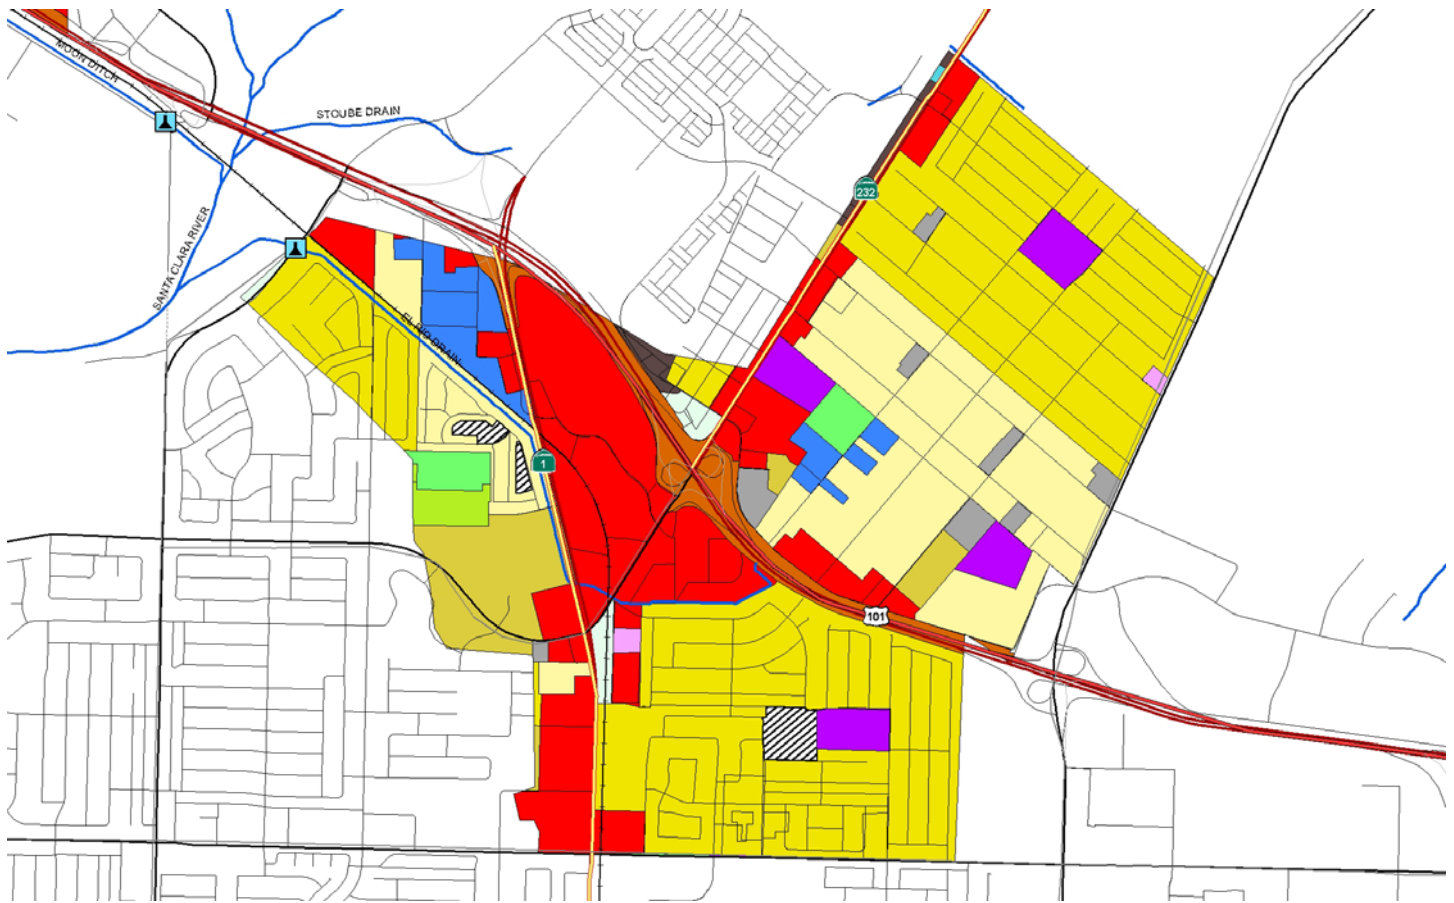

Cons: All equipment below-ground (maintenance and trouble-shooting more complicated)

Outstanding Site Selection Tasks: Move sampling location shown on watershed map

Other Potential Sites: 150 yds. to northeast before El Rio Drain goes underground

Dry Season Flow Potential: Likely intermittent year-round flow due to urban runoff
