In re:

STATE WATER RESOURCES CONTROL BOARD

REGULATORY ACTION:

Title 23, California Code of Regulations

Adopt sections 3939.12

NOTICE OF APPROVAL OF REGULATORY
ACTION

Government Code Section 11349.3

OAL File No. 04-1123-04 S

This basin plan amendment adopts a Total Maximum Daily Load (TMDL) for bacteria at Los Angeles Harbor (Inner Cabrillo Beach and Main Ship Channel, including the inner Harbor). Numeric targets are expressed as days of exceedance of bacteria objectives contained in the Basin Plan. Targets are set for nonpoint sources, point sources, and for discharges from general National Pollutant Discharge Elimination System permits, general industrial storm water permits, and general construction storm water permits. The targets apply to three seasons: summer dry-weather (April 1 to October 31), winter dry-weather (November 1 to March 31, and wet weather (days with 0.1 inch or more of rain and the three days following the rain event); and to monitoring sites specified in the Basin Plan.

OAL approves this regulatory action pursuant to section 11349.3 of the Government Code.
