<sup>1</sup>253 Ventura County residents and beach goers were signatories to an action alert submitted by the Ventura County Chapter of the Surfrider Foundation. Due to a technical error only 18 of the individual comment letters were received by the Los Angeles Water Board. The names of the additional signatories and the response to their comment are included in this document.

5.1 (continued)	Commentors numbered 35- 269	The Regional Water Quality Board should not continue to postpone adequate controls on agricultural runoff by continuing to issue a twelve month extension to the Ag Waiver program. Farmers and ranchers must be accountable for testing their runoff for pollutants and demonstrate that they are achieving water quality standards to protect other industries and the whole of the County's livelihood. I don't agree with the Board's decision to postpone renewal of the updated Ag Waiver program for an additional 12 months. Key deadlines are occurring now. Farmers should be held responsible for preventing pollution to our waterways and ocean now.	During the one-year extension, the requirements of the current Conditional Waiver continue, including the requirement to develop and implement a water quality management plan consisting of best management practices to address exceedances of water quality benchmarks, and to conduct water quality monitoring according to the requirements in Appendix 2 or 3.
		However, a temporary 6-month extension may be acceptable as long as the Board commits to ensuring that its renewal maintains individual ranch-level accountability. Farms and ranches that pollute must be accountable for verifying that they are achieving water quality standards to protect the environment and public health.	See, also, response to comments 4.2, 4.3 and 4.4. Regarding the proposed 6- month extension, this would not be adequate considering the input received by Board staff at the July 2022, board workshop and the necessary time for the administrative processes and public involvement associated with the development of the new regulatory order.
