

Public Notice
Notice of Intent to Discharge
Under
North Coast Regional Water Quality Control Board
General Waste Discharge Requirements
For
Addition of Chemical Oxidants to Soils and/or Groundwater
At
1791 Marlow Road
Santa Rosa, California.

Internet Posting Date: April 18, 2007

On the basis of preliminary staff review and application of lawful standards and regulations, the North Coast Regional Water Quality Control Board (Regional Water Board) intends to extend coverage under *General Waste Discharge Requirements (WDRs) Order No. R1-2006-0107 for Addition of Chemical Oxidants to Soils and/or Groundwater* for the proposed groundwater remediation project using the injection of ozone into the subsurface soil and groundwater at the Marlow Center Dry Cleaners site. The site is located at 1791 Marlow Road in Santa Rosa, California. The addition of chemical oxidants such as ozone can be an effective technology capable of reducing the levels of contaminants in groundwater. General WDRs for the addition of chemical oxidants to groundwater were adopted by the Regional Water Board in Order R1-2006-0107 on November 26, 2006.

On April 10, 2007, Marlow Partners, a California registered limited partnership, submitted a Notice of Intent and fees for a permit to add ozone, a chemical oxidant, into the subsurface at 1791 Marlow Road and the adjacent property, in Santa Rosa, California. The project is intended to eliminate tetrachloroethylene and related chemicals that remain in groundwater beneath the site.

General WDR Order No. R1-2006-0107 and documents related to the investigation and cleanup of the Marlow Center Dry Cleaners site may be inspected or copied at the Regional Water Board office on Monday through Friday, 8:30 a.m. to 5:00 p.m. Appointments are recommended and can be made by calling (707) 576-2220. Comments may be submitted in writing to the following address:

North Coast Regional Water Quality Control Board
5550 Skylane Boulevard, Suite A
Santa Rosa, California 95403

Interested persons with questions or comments may also contact Jim Tischler of the Regional Water Board staff at (707) 576-2469. Coverage under General WDR Order R1-2006-0107 will be extended to the Marlow Partners without further public notice unless significant comments are received by June 2, 2007.
