**Subject:** Sediment Workshop

Hi Rebecca

I am sorry I missed today's NCRWQCB workshop for the sediment amendment Work Plan (Plan). I hear the meeting was very informative and interesting and the RCD looks forward to working with the NCRWQCB in achieving its goals and objectives. There is one very important thing that has been omitted from the Plan - on Page 163, Russian River Task 1, the Gold Ridge Resource Conservation District (Gold Ridge RCD) is not listed as one of the stakeholder groups. The entire lower Russian Rive, including Atascadero & Green Valley Creek, Blucher Creek, Willow Creek, and the entire main channel of the Laguna de Santa Rosa are within our jurisdictional boundaries. I would be more than happy to submit background information on request. Thank you very much for looking into this.

Really excellent work on the Plan!

Talk to you soon - lisa
