

11/6/2016

Dear State Water Resources Control Board,

Hello my name is Brett Hoffman. I am the Water Conservation Representative for the City of Sacramento. My degree, experience, and passions are intertwined w/ Sustainability (especially when it comes to water - (as a drinking source and a ecosystem supporter). I strongly encourage the adoption of a plan that would require a 60% Inflow to the Delta, for the sake of the Salmon and all the species that depend on them - including humans! Thank you for the work you do and for reading this.

Cordially,

Brett Hoffman
