Subject: Do Not Disturb the Delta
Date: Saturday, January 07, 2017 1:14:12 PM

To: Jeanine Townsend, California State Water Board
From: Brian Hassett, Retired Teacher, Auburn, Ca.
Concerning: Sending Water from the Delta South

Dear Ms. Townsend,

As a native Californian who believes in careful use of our natural environment, I write to express my opposition to the proposed pirating of water from the Delta for use by farms and cities to the south. We should not disturb the fragile and beautiful delta, and all the sustainable economic advantages it affords to its residents, by redirecting large portions of its water. This is short sighted and destructive. No tunnels, no channels, no destruction. Brian Hassett, Auburn California
