To whom it may concern: I vehemently oppose the legislation to take 50% and more of the Sacramento River water for the greedy Farmers and the L.A. area. The sneaky tactic Diane Feinstein used to get this passed will go down as the most dastardly deed ever done by our so called representative in Washington. She should be expelled for doing this the people of Northern California. I used to support her, but this cuts the cake I will do everything I can to get this repealed and this ancient dinosaur of a congresswoman out of office. She is well connected to the farmers and water people who would ruin the most important estuary on the West Coast. Tell her this. Diane you are a traitor to the very people who support you. Time for this ancient cow to leave office.
