Subject: Comment Letter – 2016 Bay-Delta Plan Amendment & SED
Date: Monday, March 06, 2017 5:55:06 PM

Dear Sirs/Madams;

You will recall the goal of the Phase 1 SED is to show that it's no big deal to for the state to require 30 to 50 percent of unimpaired flows on the Tuolumne, Stanislaus and Merced rivers to flow into the Delta. I respectfully disagree.

There will be multiple negative impacts of this unimpaired flow proposal; a proposal that claims to benefit salmon by repurposing the water source historically used by me and others who call this region home. There are better ways to solve fishery and salinity problems without decimating our region's water supply as outlined by the e-petition that I have signed.

Thank you,
Howard Walton.
