Subject: Comment Letter – 2016 Bay-Delta Plan Amendment

To whom it may concern:

What the Water Board has put a small fish that isn't even native to California before the needs of our farmers that produce food for us and raise live stock. You're putting a fish before the physical needs of Americans.

It is my opinion that you are making a huge moral choice. That you would even consider putting a small fish before the needs of our farmers and ultimately all of America to eat is absurd.

This goes beyond a wrong choice! This foolishness has got to stop!

Sincerely,
Kelly Thompson
Turlock, Ca 95380
