Subject: Water diversion on the Sacramento.
Date: Monday, January 09, 2017 4:03:25 PM

Diane Fienstien is a traitor to her Northern California constituents. She should be ashamed of her self for her sneaky act in getting this subject on a bill as a rider. Fienstien has always had a conflict of interest on the water subject as she is to damn connected to all the people involved with taking our water. How much is enough. It is time California embraced more Desalination plants, dams and better water storage components. I will do every thing I can to repeal this bill and get her out of office. This old cow is do for slaughter at the next election. She should be ashamed of herself for her actions. If this bill is passed I will do everything I can to get every member off the water board and get people in there who help the environment and not screw over for the environment and people their own personal gain.
