Subject: Comment Letter - 2016 Delta Bay Plan Amendment & SED
Date: Saturday, October 29, 2016 9:37:42 AM

Dear Chairwoman Marcus,

I am writing to express my opposition to the State Water Resources Control Board Bay-Delta Plan and SED. The proposed actions fail to achieve a balanced approach of meeting California's water policy.

The Draft flow objectives will create significant impacts within the San Joaquin River watershed and would only increase conflicts between California's water users.

Sincerely
Tammy Dodson
