

Dear Ms. Jeanine Townsend-

Re: the LA Stormwater Hearing on Dec. 16, 2014:

I am a resident of Culver City and have been an active volunteer in clean water issues, particularly along Ballona Creek, for 20 years. I am aware that the cost of meeting certain requirements is extraordinary and impossible for certain local governments, especially small ones.

Therefore I support the presentation and requests by the Honorable Mary Ann Lutz, John Hunter and Norman du Pont at the hearing.
