

State Water Resources Control Board

EX PARTE DISCLOSURE REQUIREMENTS FOR PENDING GENERAL ORDERS

The prohibition against ex parte communications no longer applies to general waste discharge requirements (including NPDES permits), general waivers and general Clean Water Act section 401 water quality certifications. A "general order" does not name specific dischargers, but instead allows eligible dischargers to enroll. The following information will help the public comply with the requirement to meet statutory disclosure requirements. For more information, see Water Code section 13287 and http://www.waterboards.ca.gov/laws_regulations/docs/exparte.pdf.

Must I disclose ex parte communications with board members regarding pending general orders?

You must provide written disclosure if you are in one of these categories:

- Potential enrollees (including their representatives or employees)
- Persons with a financial interest (including their representatives or employees). For a
 definition of "financial interest," consult the Political Reform Act (Gov. Code, § 87100 et
 seq.) and implementing regulations (Cal. Code of Regs., tit. 2, § 18700 et seq.), or the
 Fair Political Practices Commission website (http://www.fppc.ca.gov/index.php?id=51)
- Representatives acting on behalf of any formally organized civic, environmental, neighborhood, business, labor, trade, or similar association

What must I disclose?

The attached form lists the information that must be disclosed to document a meeting, telephone call or other conversation. For written communications, a complete copy of the letter or email with all attachments is adequate.

When is the disclosure due?

Water Board staff must receive the disclosure within seven (7) working days after the board member receives the communication (generally, the date of a phone call or meeting with a board member).

Who must receive my disclosure documents?

Unless the board member(s) provided you with a different contact person, please send your materials to: commentletters@waterboards.ca.gov

What will the Water Board do with my disclosure?

The Water Board is required to post the disclosure on its website and to distribute it via any electronic distribution list for the proposed order. There is no requirement to distribute the disclosure to board members or to prepare responses. If you want to submit written comments or evidence on a proposed general order, you must provide the comments or evidence following the procedure and timelines provided in the notice for the board's proceeding.

May other interested persons respond to a disclosure notice?

The Water Code does not require that interested persons be allowed to respond to disclosure notices. Any such responses should be included in formal comments submitted during the order's written comment period, included in oral comments at the hearing, or both.

STATE WATER RESOURCES CONTROL BOARD EX PARTE COMMUNICATIONS REGARDING PENDING GENERAL ORDERS DISCLOSURE FORM

Note: This form is intended to assist the public in providing the disclosure required by law. It is designed to document meetings and phone calls. Written communications may be disclosed by providing a complete copy of the written document, with attachments. Unless the board member(s) provided you with a different contact person, please send your materials to: commentletters@waterboards.ca.gov

Use of this form is not mandatory.

1. Pending General Order that the communication concerned:

2. Name, title and contact information of person completing this form:

	Note: Contact information is not mandatory, but will allow the Water Board to assist you if additional information is required. If your contact information includes your personal residence address, personal telephone number or personal email address, please use a separate sheet of paper if you do not want that information posted on our website. However, this information may be provided to members of the public under the Public Records Act.
3.	Date of meeting, phone call or other communication:
	Time:
	Location:
4.	Type of communication (written, oral or both):
5.	Names of all participants in the communication, including all board members who participated:
6.	Name of person(s) who initiated the communication:

8. Attach a copy of handouts, PowerPoint presentations and other materials any person used or distributed at the meeting. If you have electronic copies, please email them to facilitate web posting.

7. Describe the communication and the content of the communication. *Include a brief list or summary of topics discussed at the meeting, any legal or policy positions advocated at the meeting, any factual matters discussed, and any other disclosure you believe relevant. The Office of Chief Counsel recommends that any persons requesting an exparte meeting prepare an agenda to make it easier to document the discussion properly.*

Attach additional pages, if necessary.

CENTRAL COAST REGION ILRP DATA MANAGEMENT June 27, 2017

AGENDA

- 1. Introductions of Central Coast Water Board staff (Chris Rose, ILRP Manager, Central Coast Water Board)
- 2. Introductions: around the table and telephone
- 3. Objective of meeting (Chris Rose)
- 4. Presentation: "Electronic Reporting Required for Individual Dischargers at Central Coast Water Board" (Elaine Sahl)
- 5. Presentation: "Total Nitrogen Applied Data Management at the Central Coast Water Board" (Arwen Wyatt-Mair)
- 6. Discussion (Group)
- 7. Wrap-up (Chris Rose)

Electronic Reporting Required for Individual Dischargers

Central Coast Water Board Irrigated Lands Regulatory Program

> Elaine Sahl June 27, 2017

Meeting Objectives

- Provide update on the implementation of electronic reporting
- Provide summary of information received from individual dischargers
- Provide summary of coordination with Coalitions to implement monitoring

Overview

- PART 1: Background, Priorities, Statistics
- PART 2: Individual Discharger Information
- PART 3: Case Management & Implementation
- PART 4: Outcomes and Benefits

Part 1

Background
Priorities
Statistics

Background

- 2005 Hardcopy Notice of Intent
 - Quickly inaccurate and out of date
 - Not easily accessible
- 2010 electronic Notice of Intent

- 2012 electronic Annual Compliance reporting
- 2017 Individual dischargers continue to report electronically

Data Management Priorities

- Secure data management system available to Water Board and public
- System enables Individual Dischargers to submit, review, and update info in a timely manner to ensure accuracy
- System enables Water Board to efficiently evaluate individual compliance
- System enables Water Board to identify water quality priorities

Current Individual Reporting

- Enrollment
 - 4,334 Farms
 - 424,352 Irrigated Acres
- Annual Compliance Report
 - 2,797 Farms
 - 311,214 Irrigated Acres
- Well Monitoring
 - Individual and Coalition
 - 1,396 Domestic & 2,578 Irrigation
 - 584 Domestic

Part 2

Individual Discharger Information

Enrollment, Annual Compliance Reporting, Monitoring

Enrollment

 Owners and/or operators must enroll by submitting an electronic Notice of Intent (eNOI)

Agricultural Regulatory Program You can receive irrigated ag program updates by e-mail. Subscribe online: Agricultural Discharges Enroll in the Agricultural Regulatory Program and Update NOI Information Owners and/or operators of irrigated cropland on or from which there are discharges of waste that could affect the quality of any surface water or groundwater must enroll in the Agricultural Order by submitting a Notice of Intent (NOI). The NOI form must be filled out electronically, using the links below. Owners and/or operators that have submitted an electronic NOI and have a username and password, must login using the Returning eNOI Users link Returning eNOI Users New eNOI Users Annually by October 1, growers must update the eNOI to reflect any changes to the operation or ranch/farm information, including any changes in acreage or contact information. Growers with Tier 2 and Tier 3 ranches/or farms must also submit the Annual Compliance Form (ACF) to describe progress towards compliance with the Order, including implementation of management practices, treatment or control measures, or changes in farming practices. Note: Returning eNOI Users are initially provided a temporary username and password from the Water Board. After growers login with this temporary information, growers are prompted to create a unique username and password. Please save this unique username and password, as it is required for future logins Forms & Instructions These documents can be useful as guides for submitting, viewing, and/or updating electronic NOI information. Please check back here for periodic updates to these documents. Sample Electronic NOI Form Electronic NOI Field Descriptions: ENGLISH or SPANISH Electronic NOI Information and Instructions

Water Board Contact Information

If you have any questions regarding the electronic NOI or Annual Compliance Form please contact:

Part 3

Case Management & Program Implementation

Individual Dischargers

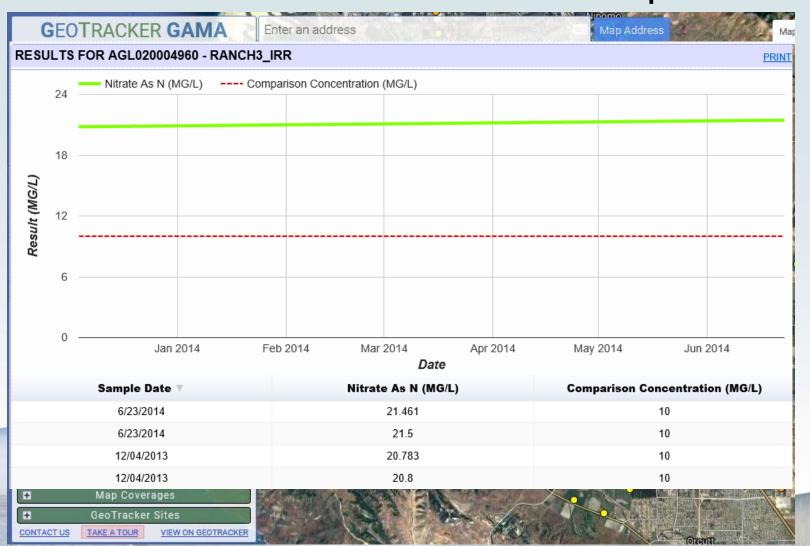

Case Management

Well Monitoring

In Coordination with Coalition/Cooperative

Assessment & Prioritization

- Individual reporting
 - Enrollment
 - Annual Compliance Reporting
 - Well Monitoring
- Individual location or proximity
 - Impairment locations / areas
 - Basin / sub-basin areas
 - Regional scale

Part 4

Outcomes and Benefits

Outcomes

- Individual discharger reporting
- Positive response from regulated community
- Addresses data management priorities...
 - Secure system available to Water Board and public
 - Enables Individual Dischargers to submit, review, and update info in a timely manner to ensure accuracy
 - Enables Water Board to efficiently evaluate individual discharger compliance
 - Enables Water Board to identify water quality priorities

Benefits

- Ability to share data quickly
 - SWB , CDFA, CDPH, assistance providers, public, interested parties, other agencies
- Ability to use limited resources efficiently
- Ability to address the most serious water quality issues

Questions

Total Nitrogen Applied

Data Management

Central Coast Water Board Irrigated Lands Regulatory Program

> Arwen Wyatt-Mair June 27, 2017

Overview

- Background
- Form features and submittal
- Data navigation
 - Ranch-level reporting
 - Automated calculations
- Benefits

	Ranches Enrolled	Acres Enrolled	
Region 3	4,334	424,352	
Due Date	Ranches Reporting	Acres Reporting	
Oct 1, 2014	>600	115,000	
Oct 1, 2015	>700	118,000	
Oct 1, 2016	>700	117,000	
Due Date	Ranches Predicted	Acres Predicted	
Mar 1, 2018	1,700	230,000	

Form Features

- Electronic fillable ("live") PDF form
 - Interactive upgrades made over time
- Submitted via email
- Data automatically imported to Excel

Total Nitrogen Applied Form

After Submittal

- 1. Receive form via email
- 2. Verify completeness and values
 - a. If needed, ask grower to check reported values
- 3. Excel macros used for <u>automated</u> tasks
 - 1. Import
 - 2. Mass calculations
 - 3. Analysis
 - 4. Outputs (graphs, tables, etc.)

Compliance Statistics

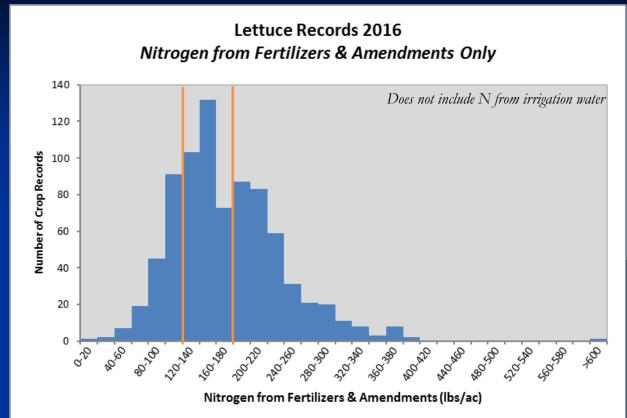

- Estimated time to complete report (after first year) is less than 1 hour
- High level of compliance

Due Date	Ranches Reporting	Compliance		
Oct 1, 2014	>600	100%		
Oct 1, 2015	>700	99%		
Oct 1, 2016	>700	98%		

Data Navigation

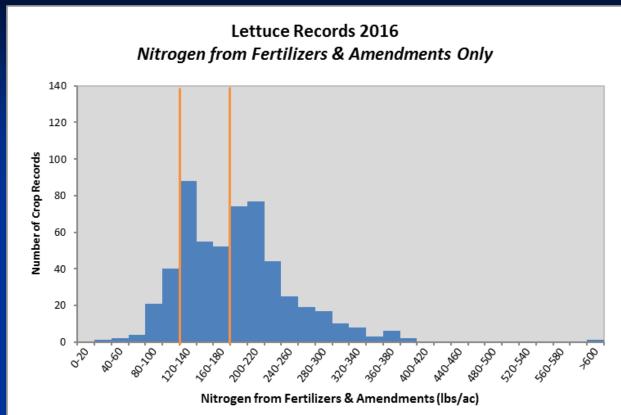

- Pivot tables, charts, and slicers (filters)
 - View ranch-level data
 - Then sort and filter to identify potential patterns across crops, counties, basins, etc.
- Connect to other submittals
 - eNOI, Annual Compliance Form
 - Groundwater data

	Min	Max	Mean	Median	Records	Recs Above	% Above
All	0	626	169	159	733	311	42%

S.Barbara	48	316	132	141	120	32	27%
SLO	0	291	137	109	42	8	19%
S.Clara	64	275	140	140	30	5	17% 10

	Min	Max	Mean	Median	Records	Recs Above	% Above
A11	0	626	169	159	733	311	42%
Mont	47	626	183	183	479	264	55%
S.Barbara	48	316	132	141	120	32	27%
SLO	0	291	137	109	42	8	19%
S.Clara	64	275	140	140	30	5	17%

Automated Calculations

- Total nitrogen applied to ranch (fertilizers + water)
- Comparisons between application and uptake
- Residual nitrogen
- Crop-by-crop, ranch-by-ranch, then basin-by-basin
 - Increases ability to prioritize calculation is more representative of the ranch

Benefits

- Positive feedback from regulated community regarding form features
 - Built-in calculator decreases time spent reporting
- Data sharing (other agencies, public, technical assistance providers)
- Efficient evaluation of compliance and reported values
 - Ability to navigate data and identify patterns
