Greetings Jennifer,

Attached is a list of landowners who have not responded or completely responded to the 13260 Order by the required deadline. We plan on issuing these landowners a NOV within the next week. Would you please review the list and confirm if these landowners have not enrolled in your coalition? Also there is a second tab in the spreadsheet listing the landowners who have claimed an exemption to the program and will not be enrolling at this time. Water Board staff plans to conduct verification inspections to confirm these landowners exemption claims.

Thank you for your help with this,

Wes
