Dear Susan,

Attached is the cover letter for the ESJWQC June 2011 Quarterly Monitoring Report Submittal. An envelope with the CDs containing the electronic data, field sheets and laboratory reports will be delivered today. Parry will be mailing in the cover letter with a wet signature. Please note that February 2011 paraquat and glyphosate lab results are unavailable because the samples were lost en route to North Coast Laboratory.

In addition, attached to this email is a cover letter for the addendum to the ESJWQC 2011 AMR for updated PUR data. The CD containing the most current PUR database and a hard copy of the cover letter with a wet signature will be delivered today as well. Please let me know if you have any questions,

Thanks,
