Subject: Re: ESJWQC-Duck Slough @ Hwy 99 Removal Request

Hi Rachel,

After the preliminary review of the request to remove the Duck Slough @ Hwy 99 sample site from the MRP Plan, there are a couple of questions:

1. Are there any sites upstream from the construction at Hwy 99 that might be feasible sampling locations representative of the upper reach of the Duck Slough?
2. With the construction upstream, how will potential construction discharge and runoff affect the Duck Slough @ Gurr Road site?

Thanks,

Jelena

Dear Susan,

Attached is a letter addressed to Pamela Creedon requesting the approval to remove the Duck Slough @ Hwy 99 sample site from the ESJWQC monitoring program. Since the Coalition will no longer be able to access the Duck Slough @ Hwy 99 monitoring location starting in May 2012, a quick response from the Regional Board is necessary to allow the Coalition to make all necessary changes to its monitoring schedules before the May monitoring event. Parry will be mailing the letter with a wet signature to you this week.

Please let me know if you have any questions. Additional documentation can be supplied as needed.

Thanks,

Rachel C. West
